WEATHER FORECASTS

Victoria and vicinity—Fresh to strong southerly winds; unsettled and mild, with occasional rain.
Vancouver and vicinity—Fresh to strong easterly and southerly winds on the Gulf; unsettled and mild, with occasional rain.

DEMAND FOR FREEDOM OF INDIA GROWS

Moslem Leader Urges Complete Independence at London Conference

DOES NOT ASK FOR DOMINION STATUS

Pays Tribute to His Majesty for Understanding of Problems

LONDON, Nov. 19.—India's round table conference today heard a voice from within in a demand for complete independence.

"I do not come to ask for Dominion status," exclaimed Muhammad Ali, one of the famous All India Moslem League, "I do not believe in the attainment of Dominion status. The one thing to which I am committed is complete independence."

Today the Hindus and Moslems alike challenged the Conservative view expressed by Lord Peel yesterday, when the former Secretary of State for India declared Dominion status had not been promised as an immediate gift, but had merely been pointed as a goal by the present Viceroy of India, Lord Irwin.

PLEADS FOR FREEDOM
"I want to go back to my own country," Muhammad Ali declared, "only if I can go back with the substance of freedom in my hand. Otherwise I will not go back to the slave country. You will have to give me a grave here."

All scattered his shafts freely. Rt. Hon. Stanley Baldwin, he said, while he had made history because, while belonging to the party of the so-called "die hard," he was man enough to put a dagger in a cherry-wood pipe and man enough to smoke it.

Of Lord Irwin, the Viceroy of India, Ali said: "If any man can be said to have saved the British Empire today it is that tall, thin Christian."

MAKING FORCED MARCHES

"India," he proceeded, "has put on fifty-league boots. We are making forced marches which will astonish the world, and we will not go back to India unless a new Dominion is born. If we go back to India without the birth of new Dominion, we shall go back to a lost Dominion."

"We shall go back," continued Ali, "to an America. Then you will witness—not within the British Commonwealth or the British Empire but outside it—you will witness with the Indian princes, with Mr. Moolie, with Mr. Jayakar, my brother and myself, a free and United States of India. It will, too, be something more than that."

There was, Ali argued, no Hindu-Moslem problem at all.

WRECKAGE OF PLANE FOUND; THREE DEAD

Missing Air Liner Discovered Plunged Nose First into California Plateau

MAIL TRANSPORTED BY MACHINE INTACT

BURBANK, Cal., Nov. 19.—Plunged nose first into a gently sloping plateau in the Tehachap Mountains foothills, a Pacific Air Transport night mail plane was found today, its three passengers dead.

Discovery of the wreckage ended a forty-three-hour search. The wreckage had not burned. The plane, piloted by F. A. Donaldson, and carrying Miss Jean Markow, eighteen, of Los Angeles, and George Rogers, its mechanic, left United Airport here Monday midnight and became lost in fog, snow and gales over Tejon, eighty miles north.

END OF FLIGHT

The end of the ill-fated flight came approximately halfway between Tejon and Antelope Valley emergency airports, the former in the Tehachap and the latter in the flat at the edge of the Mojave Desert.

The 319 pounds of mail the plane was carrying to Oakland and Portland was found intact.

With the plane last reported by radio shortly after 2 a. m. yesterday at 9,000 feet elevation over Tejon, the search was confined to an area of wild mountains, in which peaks nearly 8,000 feet high are found, foothills and the Mojave.

Donaldson indicated he would turn back towards Burbank if the storm became more severe.

DISCOVER WRECKAGE

Cowboys from the ranches in the vicinity, forty airplanes, horsemen and volunteers rushed into the district. It was one of the former, M. Newton, who rides the rough range of the Los Alamos Ranch, who stumbled upon the wreckage at 2:30 p. m. today shortly after Newton reported the find in the snow-covered foothills, several planes circling the region and sighting it.

The plane said the plane was telegraphed in such a manner as to indicate it fell almost perpendicularly for a thousand feet.

TWENTY-THREE LOSE LIVES IN TERRIFIC OKLAHOMA TORNADO

One Hundred Persons Injured and Scores of Buildings Destroyed in Little Church Colony of Bethany—Many Buried in Splintered Wreckage of Their Homes

Five Companies of Guardsmen Protect Scattered Valuables

OKLAHOMA CITY, Nov. 19.—A tornado of terrific force today cut a swath of death and destruction through the little church colony of Bethany, seven miles west of here.

Twenty-three persons were killed, one hundred were injured and approximately one hundred buildings destroyed.

Striking during a heavy rainstorm, the tornado leveled a 200-yard-wide path through the eastern edge of the town, burying many persons in the splintered wreckage of their homes.

RENDER FIRST AID

All ambulances in Oklahoma City were rushed to the scene. Red Cross and Salvation Army workers rendered first aid.

Five companies of Oklahoma National Guardsmen went into the area to protect scattered valuables from vandals.

Dropping first a few miles south of Bethany, the twisting funnel of death wrecked the Camel Creek Schoolhouse, killing four pupils and injuring the teacher and ten other children.

The tornado whipped on north through the eastern side of Bethany, state headquarters of the Nazarene Church and home of Bethany Peniel College, a denominational school.

RELIEF WORKERS
The first organized relief workers into the wreckage was the football team of the nearby Putnam Consolidated School. When Mrs. W. L. Burton saw the storm approaching, she caught her baby in her arms and sheltered it as the house clutched. Her husband found her shivering in the rain, the child still clutched in protection. The baby escaped with minor scratches. But Mrs. Burton was badly lacerated.

THREE MEN ON WATER VOYAGE LONG OVERDUE

KETCHIKAN, Nov. 19.—Three men left Ketchikan, Ore., for Alaska in a forty-two-foot trolling boat were long overdue here today, where wives of two of them and four children, who came north by steamer, waited hopefully for their arrival with household goods of the two families.

Pete Murphy, Calvin Beck and W. C. McCall, left Ketchikan, Oct. 15, in the Tigra, carrying furniture and household belongings. Mrs. Murphy and her four children, and Mrs. George Buchanan, left Marshfield, Oct. 18.

The Tigra was an old launch, badly in need of repair. It was leaking and had a faulty engine when it departed from Marshfield.

TWO MEN INJURED IN PORT ANGELES FIRE

PORT ANGELES, Nov. 19.—Two men were slightly injured in a fire here today that destroyed a two-story frame building occupied by the City Furniture Company and Alaska Hotel. Owners of the building estimated the loss at between \$15,000 and \$20,000, covered by insurance.

Mr. Rhebeck and William Watts, assisting firemen, fell through the second floor to the ground floor in a flaming mass of wreckage when the middle section of the building collapsed under the weight of water. They broke a window into an adjoining warehouse and escaped.

VANCOUVER WOMAN IS SHOT TO DEATH

VANCOUVER, Nov. 19.—A woman registered at a rooming house in Hastings Street East, as Mrs. Nellie Cridle, was shot and fatally wounded tonight in her room, allegedly by an Oriental, who was later found with bullet wounds in the throat and in the chest, according to a police report.

NATIONAL AGRICULTURAL POLICY IS PROCLAIMED

TORONTO, Nov. 19.—A Dominion Agricultural policy was tonight proclaimed by Hon. Robert Weir, Dominion Minister of Agriculture. On the occasion of the opening of the Royal Winter Fair, the minister enunciated important policies, adopted after three days of deliberation in the right direction should be taken, and insisting on the necessity of co-operation throughout agricultural Canada, the minister introduced four measures designed to remedy the situation to bolster "Canada's chief industry." They are:

1. The introduction of better blood in herds.

2. The scientific use of home-grown products for herd feeding purposes.

3. Careful study of the science of marketing.

4. The prevention of implantation and spread of poultry diseases.

The minister made brief analysis of his four major propositions. Considering the difficulty the average farmer experiences in securing a first class sire, whereby he might improve the blood of his cattle, and the general usefulness of his stock, Mr. Weir undertook to supply free of cost to any group of energetic and deserving farmers a sire to be used during a period of two years. This, he thought, would eliminate expense, and a useless waste of time and energy and encourage one of the more necessary and wholesome steps in the raising of profitable and sound stock.

Because of present conditions, the minister foresaw a very definite increase in pork production during the next few years. This he did not advise, but felt that because of the inevitable trend, steps should be taken to direct that increased production. In his opinion this would be best done by supplying farmers with brood sows of the fine bacon type at cost and at the transportation price. This would eventually mean that the right quality of bacon could be produced for home consumption and export, where a decision was rendered at another time a portion of the claims got as far as the Exchequer Court, where a decision was rendered.

Industrial Revival Has Commenced in Eastern Provinces

Hon. Gideon Robertson Says Many British and United States Firms Are Planning to Establish Branch Factories in Canada—Manufacturing Greatly Stimulated by Protection

Letters to Ottawa Full of Optimism

OTTAWA, Nov. 20.—Canada is assured of the expansion of present industries and the addition of scores of new plants, either of Canadian institutions or branches of British and American factories; this is the view of the industrial situation and outlook expressed by Hon. Senator Gideon Robertson, Minister of Labor.

Already new plants are assured and present industries, especially textile, are working increased hours and employing more hands. A prominent Ottawa broker is acting for one Scottish and five American firms desiring to establish branches here, while the Acting Prime Minister, the Department of Trade and Commerce and the National Revenue Department are receiving letters from other firms that will establish here. It is believed that by this time next year there will be established in Canada or in the course of establishment fifty or more new branch factories of British and American concerns.

Many letters, sent to the minister without solicitation, tell of increased employment and increased output, attributing the industrial revival to the tariff policy of the Bennett Government and to the campaign promoting the purchase and sale of Made-in-Canada goods. Most of these letters were received from various parts of Ontario and Quebec, and they reveal a new spirit of optimism.

A knitting company at Dunnville, Ont., stated that since the tariff changes it has added thirty-two employees and is operating its plant at full capacity instead of four days a week as formerly. Within the past two weeks, it has received an order to increase the number of employees. The United States, giving work to twenty-six machines that had been idle for a year. It will keep the machines busy for the next five months.

The Dominion Textile Company reported that on September 6 its plants were operating to 50.73 per cent capacity, and in six weeks the percentage had risen to 81.86 per cent.

PLANT EXTENSIONS
At Cornwall, Ont., a factory is being extended with 200 men employed on construction. At the same time the present plant is operating to capacity, having added seventy employees recently, and by next July it expects to be employing between 300 and 400 additional persons.

Quebec textile manufacturers stated that this ensuing year, they are planning to add 250 to their staff, increasing the payroll by \$3,000 a week, and they will shortly add another fifty with a further increase of \$1,500 in the weekly payroll.

At Granby, Que., a plant is operating fifty-six looms, employing eighty-six persons. Extensions will shortly place another hundred looms in operation, with a corresponding increase in the number of employees. A plant at Drummondville, Que., is being extended by a \$2,000,000 addition which will shortly give employment to an additional 3,000 persons.

WAS IDLE THREE YEARS
An English firm has purchased mills at Carleton Place, Ont., which have been idle for three years, and it is expected to open on December 1 with 300 employees. Another plant at Renfrew, Ont., has been reopened since the tariff changes and is employing between 150 and 200 persons, while at Rockwood, Ont., woolen mills that had been closed for four years are now operating and adding \$60,000 annually to the payroll of the community.

A large manufacturer of fertilizers wrote stating that a reduction of \$2 a ton in price of products had been made possible through increased production as a result of the 10 per cent duty given as protection.

GOVERNOR FORESEES BRIGHT FUTURE FOR BRITISH COLUMBIA

Hon. R. R. Bruce Tells Vancouver Publicity Bureau He Believes Adversity of Business Depression Will Prove Blessing in Disguise

VANCOUVER, Nov. 19.—Striking a keynote of confidence in the future of British Columbia, His Honor Lieutenant-Governor R. R. Bruce told the belief that the adversity of business depression, now evident throughout the world, would prove a blessing in disguise, during an address as guest of honor at the annual meeting of Vancouver Publicity Bureau, tonight.

"Adversity," declared the Lieutenant-Governor, "brings out the strength of nations, just as does the strength of men. Wealth breeds indolence and projects under way are not typical of the best type of men. And so I think this depression from which we are suffering is a good thing. May I say that I have no doubt of the future of this city with such men directing its destinies as I see gathered here tonight."

His Honor was accorded an ovation at the conclusion of his speech.

Directors elected to guide the destinies of the Publicity Bureau during the ensuing year included: B. Allan, Harold Darling, Brenton S. Brown, T. H. Kirk, M.P.P., E. H. Adams, Fred Cronie, Oscar W. Pearce and Dr. G. H. Worthington.

W. J. Blake Wilson was appointed honorary president, and Hon. W. C. Shelly honorary vice-president for the next year.

The eyes of the Mother Country are upon Canada today as they have never before, said Mr. Bruce. He said power developments in British Columbia would attract new industries to the Lower Mainland, and he declared the publicity bureau could serve a useful purpose in attracting such industries here.

PROVINCE MAY OPEN SEALING CLAIMS ISSUE

Premier Tolmie Ready to Put Forward Local Representation

HON. E. N. RHODES MAY BE PETITIONED HERE

Compensation of sealing vessel owners, put out of business by the passage of the pelagic sealing treaty between the United States and Canada many years ago, may be discussed by the Province with Hon. E. N. Rhodes, Federal Minister of Fisheries, who will arrive here in the course of a visit to the Coast, on Friday.

Victoria, in those days, was the headquarters of upwards of fifty wooden schooners which plied in the lucrative trade, until the passage of restrictions which, according to their masters, made continued operation impossible. For a long time the schooners, with masts clustered together in a forest of spars, lay huddled in the upper basin of the harbor, one by one to be broken up.

QUESTIONS REVIVED
Now representatives on behalf of the former sealing vessel owners have revived the question of compensation, and are expected to lay their proposals before Premier Tolmie within the next few days, to take up with the Federal Minister.

Premier Tolmie made a determined effort to secure a hearing for the Victoria sealers in 1920-21, when a special committee was appointed by Parliament to go into the whole question. Before action was taken, however, the Government changed hands.

At another time a portion of the claims got as far as the Exchequer Court, where a decision was rendered.

SETTLEMENT IN B.C. DISTRICTS IS REVIEWED

Oriental Penetration and Dairy Imports Are Causing Some Concern

FARM BOARD NEARS END OF PROGRAMME

Colonization and settlement matters, Oriental penetration of Canada, Australian imports, and many other subjects were discussed by the advisory board of British Columbia Farmers' Institutes at its meeting yesterday. The board will conclude its deliberations today, when a final gathering will be prepared for presentation to the Government.

A round-table discussion of colonization and settlement matters was held by the board with Dr. W. H. Gadsden and Col. W. S. Latta, secretary of the British Columbia Farmers' Institutes, who will speed northward, and will also go north to lend their aid in the month-old hunt for the lost flyers.

OCEAN CLAIMS TWO VESSELS; HUNDREDS SAVED FROM DEATH

Swedish Freighter Founders Off Grand Banks When Cargo Shifts—Crew Is Rescued by Mauretania While Two Other Ships Stand By in Answer to Distress Calls

British Liner Bound for South America Is Wrecked

Highland Hope Smashes on Rocks on Portuguese Coast—535 Men and Women Reach Safety in Lifeboats—Five Seamen Drown When Steamer Sinks After Collision in North Sea

NEW YORK, Nov. 19.—The magic of wireless, plus traditional heroism of the hardy men of the sea, saved the lives of 568 persons on storm-tossed seas yesterday. Twenty-seven men and one woman followed the ancient code of the ocean and rowed half a mile through raging waters to reach the liner Mauretania, summoned by the SOS, after they had abandoned the distressed Swedish freighter Ovidia, off the Grand Banks of Newfoundland.

The United States liner America, veteran of many rescues, was close, and the United States freighter Endicott also was nearby, but the valiant twenty-eight pulled farther for the Mauretania, obeying the unwritten law of the deep that the first boat on the scene makes the rescue.

Far to the other side of the Atlantic, 535 men and women were taken safely off the liner, Highland Hope, in lifeboats, and lodged in Lisbon after their vessel crashed on the rocks off the Portuguese coast. Only two casualties were reported.

Up in the North Sea five seamen drowned after a collision of the British steamer Continental Freighter and the British steamer Hebble, in Antwerp Roads. The Continental Freighter sank, but five others of her crew were rescued.

Shipping circles were concerned for the small Swedish steamer Tanja, which dropped out of sight in the South Sea. But after she left Danzig ten days ago.

CODE OF THE SEA
ABOARD S.S. AMERICA, Nov. 19.—The unwritten code of the sea today caused twenty-seven men and one woman, already physically exhausted from hours of battling to save their sinking ship, to choose the hardest path of rescue after the Swedish cargo steamer Ovidia had foundered off the Grand Banks of Newfoundland.

Through most of last night the British Cunard vessel Mauretania, and the United States liner America, and the United States Shipping Board vessel Endicott, had raced to aid the stricken vessel before it sank.

Although all three ships sighted the Ovidia within approximately an hour of one another, shortly before noon today, the Mauretania was the first to reach the scene. The sailor's code demands that the first vessel to arrive shall save the lives and salvage the cargo, if possible, from any sinking ship.

All three stood close by for an hour before Captain Carlson, of the Ovidia, decided to abandon the 1,800-ton freighter.

CARGO HAD SHIFTED
The Ovidia was listing dangerously to starboard when the America reached her at 11 a. m. (Eastern standard time) today, at a position between 300 and 400 miles south of Cape Cod.

GOV'T PLACES SOLDIERS AT MANY POINTS

Spanish Cabinet Orders Troops to Break Up Madrid Street Meetings

TAKES PRECAUTIONS AGAINST REVOLUTION

MADRID, Nov. 19.—Spain's wide-spread social disorders extended today to Seville and Cordoba, and an alarmed Government disposed troops at points where they appeared needed most as a precaution against developments of a revolution.

Today the Cabinet believed it had scotched a revolutionary plot by throwing troops into Madrid with orders to use any means to break up street meetings.

RIOTERS SHOUT INSULTS
But as labor unrest spread to two new cities, the feeling of comparative security appeared to evaporate. At Seville rioters shouted insults to the King and Government. At Cordoba strikers fought with police in the streets. At Barcelona clashes of the past two days continued. At other points the worst seemed to be over.

From Alicante came reports that a dozen or more had been injured when the civil guards put down a new riot. There were several arrests, one the Communist leader, Rafael Villard.

Reports that the army was involved in a revolutionary plot were quickly denied.

STUDENTS ON STRIKE
Several hundred striking chemical students of the University of Madrid rioted in their building tonight, breaking laboratory apparatus and forcing other students to join the movement. Officials closed the chemical department temporarily.

From Salamanca it was learned students of the local university went on strike from their classes and staged demonstrations in the heart of the city, shouting for a republic.

MUSICIAN PASSES AWAY
Gagnon, prominent musician and organist at the Basilica for forty years, died here today, aged eighty-one. Mr. Gagnon was one of the examiners of the Dominion College of Music.

CABINET MEETS
OTTAWA, Nov. 19.—Routine business occupied the attention of Cabinet ministers at today's meeting. The meeting was lengthy, but no announcements were made at its conclusion.

LASHES FOR HOLDUP
TORONTO, Nov. 19.—James Kirkland and Jack Darwent, who last week pleaded guilty to robbing the Canadian Bank of Commerce at

Unionville, were today sentenced by Magistrate Keith in county police court to eighteen years in Portmouth Penitentiary. Kirkland will also receive fifteen lashes and Darwent ten.

TO ASK INDEMNITIES
MADRID, Nov. 19.—The Spanish Government yesterday decided to ask indemnities of Brazil for the lives of Spanish subjects, who died during the recent shelling of the German steamship Baden at Rio de Janeiro.

IS DANGEROUSLY ILL
LONDON, Nov. 19.—Of information from the 1st and 2nd of Cyprus, late yesterday, said the former King Hussein, of the Hedjaz, was still alive but dangerously ill.

ARE AWARDED DEGREES
EDINBURGH, Nov. 19.—The Prime Ministers of three of Britain's Dominions added to their list of university degrees today, when the University of Edinburgh conferred its honorary degree of doctor of laws upon Rt. Hon. R. B. Bennett, of Canada; Rt. Hon. James Scullin, of Australia, and Rt. Hon. G. W. Forbes, New Zealand.

WHEAT RUST IN ARGENTINA
BUENOS AIRES, Nov. 19.—A report issued tonight by the Argentine Ministry of Agriculture estimates that 2,000,000 tons of wheat will be lost from the next harvest because of rust.

EXHIBITION OF ARTS
LONDON, Nov. 19.—The exhibition of arts and crafts, which opened yesterday, is being held at the Royal Albert Hall, and is expected to attract a large number of visitors.

RAILWAY HEADS GIVE DECISION

Beatty and Thornton State Positions in Relation to Seaplane Base

REFUSE TO WITHDRAW

Concurring in the decision of the Federal Department of Marine that the establishment of a seaplane base in the Inner Harbor of Victoria is not in the best interests of the public, P. W. Beatty, president of the Canadian Pacific Railway, and Sir Henry Thornton, president of the Canadian National Railway, have replied individually to telegrams sent to them by the Chamber of Commerce and the Victoria City Council, requesting them to withdraw objections to seaplane base proposals.

MR. BEATTY'S REPLY
 In the telegram from Mr. Beatty, a copy of which was received by Mayor Ansonbom and P. B. Fowler, president of the Chamber of Commerce, early yesterday morning, the attitude of the shipping interests is stated as follows: "This company has large capital investment in Inner Harbor and the ships using it. It is considered by competent authorities that the establishment of hydroplane base in this harbor would be a serious menace to shipping. We appreciate your anxiety to establish this small industry in Victoria. It is our opinion that navigation must be given every protection in entering and leaving what is already a congested port. Mr. Beatty further states he does not think adequate regulations could be drawn that would give sufficient protection to shipping."

SIR HENRY'S STATEMENT
 Sir Henry Thornton states in his brief telegram: "Understand Department of Marine decided not in public interest to lease water lots in Inner Harbor for seaplane base in which we consider a serious menace to shipping. Sir Henry also states his opinion in connection with regulations and expresses his regret at having to refuse to withdraw objections."

HISTORY OF PROJECT
 Early last summer the industrial committee of the City Council, operating with a similar committee of the Chamber of Commerce, opened negotiations with Edward Lowe, Jr., head of the Pacific International Airways, Limited, for the establishment of a seaplane base in Victoria. Plans were prepared, of the proposed hangar and negotiations proceeded rapidly following conferences with air officials connected with the aviation branch of the Department of Marine. An site was procured at the foot of Erie Street on which to build the hangar, and application was prepared to secure possession of the property. Shipping interests filed objections to the use of the inner harbor for airway traffic. Several conferences were held with the local shipping officials and finally the whole question was referred to Montreal, the headquarters of the two interested railway companies. Proposals for the use of properties were refused at Ottawa.

MINISTER OF MARINE
 On the recent visit of Hon. Alfred Durnaneau, Minister of Marine, to Victoria, a conference was held at which the city presented its case and requested the minister's decision. The minister advised the delegation that on his return to Ottawa he would ask for a conference of departmental officials and would advise the authorities at Victoria of the result. The conference has not yet been held, it is understood.

Early in the week telegrams were sent to the heads of the two railway companies requesting that they withdraw their objections to the granting of foreshore rights and replies were received yesterday. Up to late hour last night no decision had been made by the Ansonbom or Chamber of Commerce officials with regard to future action.

DEMAND FOR FREEDOM OF INDIA GROWS

Continued from Page 1

"The fact is," he charged, "that the Hindu-Muslim difficulty, like an army of difficulties, is of your own creation. But it is not, I admit, all of your making. Yet we have the old question of divided rule. We are divided and you rule. The moment we decide not to be divided you will not be able to rule."

Muhammad Ali paid tribute, in the course of his speech, to His Majesty the King. "He knows India better than any of his ministers, past or present," said Ali, "and we are looking to him to do justice to India's 290,000,000 people. History may be written: 'George III lost America—George V saved India.'"

FAVOR FEDERAL IDEA
 More Indian princes today favored the Federal idea for the governing of India. The Sikhs made a plea for the protection of their minority rights, and other minority pleas were voiced.

"We will be satisfied with nothing less than full, complete independence," insisted Dr. B. S. Moonje, head of the Hindu Mahasabha, or protection society.

Prime Minister MacDonald, throughout the speeches, made a move to curb the speakers, or to hold them to the immediate business of the conference which is to decide whether the future government of India shall be a unitary or federal system.

The Prime Minister had announced at the outset he would make no tape rulings, and has given the delegates full rein.

Fables and Foibles

Being Verse and Worse

By H. T. M.

KING AND QUEEN

I stood without the Palace gates
 And saw a splendid scene
 Of prancing steeds and Potentates
 And then, the King and Queen!

And all was gold, and purple shade
 Throughout that pompous hour
 Wherein the King and Queen displayed
 Themselves, in gorgeous power.

But, even as their carriage crunched
 By me, their longing eyes
 Fell on the ice-cream cone I munched—
 Sad, were their regal sighs!

SETTLEMENT IN B.C. DISTRICTS IS REVIEWED

Continued from Page 1

A complicated one, and one which there was no legal authority to change.

Upwards of 200,000 acres in the Prince George and Vanderhoof areas had been appraised recently, and a report on the appraisal was sent to the Government on this matter, he said. Two men had also been sent in to the Bulkley Valley, where an area of 600,000 acres was concerned, to make a report on the situation.

The Government had not forced any man from the land who showed willingness to remain on it and the whole thing would be done on the other hand, gone to great lengths to conserve the holdings of settlers for them, and render any assistance possible, Dr. Gaddes continued.

Taking one area, in the Bulkley Valley for example, he showed that of seventy-eight sales made through the operation of the Land Settlement Board, thirty-five owners had fully completed their agreements, ten others owed less than \$100 each, and twenty-nine were paying off their commitments steadily. This, he said, left only four settlers in the area in question who had not completed their agreements, would not be justified in the face of the majority who had.

Nevertheless, concluded Dr. Gaddes, the whole question of land values and the settlement of the Bulkley Valley had been very carefully considered by his board, and recommendations would be made to the Government in due course.

DISTRICTS REVIEWED
 Annual reports presented by members of the advisory board provided an interesting survey of the agricultural areas of the province, and showed, in general, that while admittedly depression had affected operations in recent years, great hope was maintained for the future. Particularly was this true of the beef cattle industry, where a known world shortage is counted on, and hope was maintained for the future.

A number of resolutions bearing on land matters were considered by the meeting and referred to committees for further action.

DESCRIPTORS THE PEACE
 During the afternoon the board heard an interesting account of farming conditions in the Peace River district, from James Travis, district agricultural agent, Peace River. Mr. Travis told of successful efforts to isolate stink weed in the Peace River area, and measures contemplated to overcome a lack of water in some sections of the country.

Charles E. Hope gave a review of the question of Oriental penetration into Canada, which arose in connection with district meetings complaining against suggested action by the Council General at New York.

Next year, the district meetings, members of the board decided, they would press for strict enforcement of existing immigration laws affecting Orientals.

ROWDYISM PREVAILS AT LABOR MEETING

LONDON, Nov. 19.—There were rowdy scenes in Whitechapel last night at a by-election meeting held in support of James Hall, the Labor candidate, who appeared to be in receipt of an overwhelming Labor constituency.

Mr. Hall's meeting was addressed by Ben Tillett, M.P., when a group of extremists invaded the meeting, shouting down with the speaker and sought to close the meeting.

"Hooligans" and "cowards" were the epithets hurled by Mr. Tillett, but the din only increased. He finally sat down amid bores, cat-calls, cheers and counter-cheers. The disturbers then seized the opportunity to sing the Communist Internationale, and were in their turn booed by other sections of the audience.

Pile Sufferers
 End Your Misery Without Salves or Cutting
 External treatments cannot permanently cure Piles. Now does cutting remove the cause.

and Commerce be drawn to the demoralized conditions existing in the dairy and allied industries, owing to low-priced imports from Australia, and that the Minister of Trade and Commerce be requested to take immediate steps to protect these industries from any further demoralization.

Strong representations on conditions in the dairy industry were made to the advisory board by F. Partridge, representing the creamery interests of Vancouver Island. The main point in his contention was that, while for some years past New Zealand butter flooding the market had been the cause of depressed conditions in the industry, now exactly the same condition was threatened by the Australian product.

PATTERSON SCHEME
 On October 12 when a new tariff became effective on New Zealand butter there was no change in tariff for the Australian product, which still stands at 1 cent per pound. The farmers of Australia are paid 9 cents per pound by the Commonwealth Government for every pound of butter they produce for export. This arrangement is known as the Patterson scheme. Now that New Zealand butter has been handicapped in competing in the Canadian market by the added duty, Australia is seizing upon the conditions created and already a shipment of 400,000 pounds of butter is on its way "on consignment."

It is estimated, according to evidence given by Mr. Partridge, that it will be disposed of in Canada at about 28 cents per pound. Mr. Partridge further pointed out that in 1923 and 1924 the four Western provinces exported millions of pounds of butter to Britain. At that time practically no Australian butter was to be had on local markets. Canada was self-supporting, with the exception of the Canada-Australian trade treaty, the provisions of which were extended to New Zealand, a flow of butter continued to Canada from New Zealand. During the last two years every month but one from New Zealand has brought approximately 1,500,000 pounds to Victoria.

The duty on the New Zealand product has now been increased, but to meet it the price of this product has been dropped as to absorb both the duty and duty. New Zealand butter (first grade) is now sold in Mr. Partridge's estimate at 30 cents per pound. Mr. Partridge pointed out that the Australian product was also being sold at 30 cents per pound, and that the coming of the market and still further depress the industry in Canada.

BRIDGES ARE REPAIRED
 Under clear skies today, hundreds of men repaired bridges and removed debris from Kailih Valley, Port Shafter Gulch and Moanua Valley. Repair work included uprooted trees, boulders and mud.

"Traffic north of Honolulu was disrupted by washouts and undermined bridges on the Oahu Railroad. Repair work included replacement of ties and refilling work with hope of resuming service tonight.

Hundreds of automobiles were abandoned by officers and navy yard workers between Pearl Harbor and Honolulu. Other roads to the city from other parts of Oahu Island were blocked with stranded machines.

southeast of Cape Race. Her deck-load of lumber appeared to be shifted, and Captain Carlson radioed that his vessel was leaking badly, with the pumps unrelieved, but he intended to try to reach St. John's, Newfoundland, under tow by the Endicott. But the weather grew worse on the towing ocean, and the fast mail rescue ships could not wait, so Captain Carlson held a council of the crew and decided to abandon the freighter.

The Ovidia, meanwhile, became waterlogged, and was expected to sink shortly.

STUCK FAST ON ROCKS
 LISBON, Portugal, Nov. 19.—The proud ship, Highland Hope, stuck fast in the treacherous rocks not far from the village of Peniche tonight while the sea broke her to pieces, and 835 men and women, taken off her just after dawn today, were safe in hotels here.

She had lost her course in a heavy fog, and at 5 o'clock this morning ran upon the rocks with a shock which shook the passengers out of their bunks. Lifeboats were lowered quickly, and 808 screamed through the morning and the officers and crew stood by until the last passenger was safely away.

TWO CASUALTIES
 Two Spanish emigrants, one of them a child of four, represented the total casualties of the wreck. They were reported missing, and it is feared they were drowned.

One of the heartiest of the passengers was the seventy-six-year-old Duchess of Hamilton, who was

APPLE EXPORTS TO CHINA SHOW GOOD INCREASE

Paul Sykes, Trade Commissioner, Declares Fruit Popular in Orient

OFFICIAL TO RETURN TO CITY NEXT WEEK

Paul Sykes, Canadian trade commissioner at Hongkong, who was in Victoria yesterday, believes there is good reason why Canadians should pay attention to the extension of trade with Hongkong, which is the distributing centre for some 55,000,000 people resident in the five southern provinces of China.

The business of this country with the Orient started in Japan, he pointed out, where a fairly stable trade had been built up, and from there spread to Shanghai, the port of entry for Central China. The next development, Mr. Sykes felt, should be with Southern China through the port of Hongkong.

Mr. Sykes said he hoped there would be considerable development in the shipment of apples from British Columbia to Hongkong. A start in this trade had been made last year and an excellent reception had been accorded British Columbia apples. Chinese of all classes, as well as Europeans in China, were making use of them.

Mr. Sykes left for the Mainland yesterday afternoon, but will return on Monday and spend four days here, when he will be glad to confer with any manufacturers or prospective exporters with regard to trade openings in the Orient.

The territory which falls under the patronage of Mr. Sykes as trade commissioner at Hongkong is an extensive one. In addition to Southern China, it embraces the Philippines, British North Borneo and Indo-China.

The trade commissioner will leave here on December 20 for Hongkong and will, en route, spend Christmas Day in Honolulu. He had been only one year in his new office in Hongkong before returning to Canada on this present trip. During his stay he has visited all parts of the Dominion, interesting Canadians in the extension of the trade relations with Southern China and other parts which fall within his sphere of influence.

PROVINCE MAY OPEN SEALING CLAIMS ISSUE

Continued from Page 1

against some owners, on the ground that they had ceased actual operations before the passage of the treaty.

DISTINCTION DRAWN
 Those interested in the issue have for many years contended that the matter was drawn between masters who abided by the international regulations and refrained from sealing in forbidden waters, and those who more or less openly flouted the regulations after the treaty had gone into effect.

Meanwhile payments from the United States to Canada have continued under the treaty, and it is from this fund that compensation of those affected by the issue is being sought.

Premier Tominé stated yesterday that he was willing to renew the question on behalf of the Victoria sealers, if approached to do so.

BANDITS ROB
TWO SEATTLE
STREET CARS

Pair of Holdup Men Richer
by \$452 in Series of
Robberies

OPERATOR KIDNAPPED
BY TWO ASSAILANTS

SEATTLE, Nov. 19.—Robbers were \$452 richer today as a result of holding up two street cars, a grocery store and four individuals here last night. The robbers struck four different times in rapid succession, beginning early in the evening with the robbery of a street car and the kidnapping of its operator, Truman R. Peterson.

Peterson told the police two men ordered him into their car and drove him some distance before robbing him of \$2 and releasing him. Shortly after, John Peterson, a pedestrian, reported two men in a car of the same description, a large maroon automobile, robbed him of \$82.

At 7:30 p.m. two men of the same description as those in the earlier robberies, held up another street car and robbed three male passengers and James H. Kelly, operator, of about \$18, Kelly said. Six women in the car were told, "Don't be afraid, ladies—we don't hold up women."

J. J. Geros, proprietor, informed the police two men entered his store, emptied the till of \$17 and took \$50 from George Mahos, 475 from Bill Mahos and \$55 from Mike Semanere, workmen who had been paid recently.

P.G.E. SURVEY
TO CHECK LINE

Rough Location of Diversion
Is Being Verified
This Week

NEW ROUTE IS ADOPTED

Field survey parties for the province are now at work in running a line over the new route of the Pacific Great Eastern Railway in the 21.8-mile diversion north of Quesnel, on the proposed route of the railway from Quesnel to Prince George, it was stated yesterday by Premier Tolmie, who is also Minister of Railways.

The diversion was roughly located by surveyors acting under Major C. R. Crysdale recently, and is now being checked up by parties that will go over the new route, east of the former one, to establish any additional data required, following the adoption of the suggested diversion by the Government recently.

\$8,000,000 Estate

Left by Lumberman

OTTAWA, Nov. 19.—An estate valued at slightly more than \$8,000,000 is disposed of in the will of the late Fred J. Booth, of Ottawa, filed for probate today. The former vice-president of the J. R. Booth Company, Limited, died on August 6 last.

The large estate is divided into four equal parts—for the widow, Mrs. Francis A. Booth, and her three children.

The children are Princess Eric of Denmark, formerly Miss Lois Booth, J. R. Booth and Fred H. Booth.

Christians Desire Church
Union More Eagerly Than
Ever Before, Prelate Says

VANCOUVER, Nov. 19.—Christians throughout the world today are seeking church union more eagerly than ever before, declared the Most Reverend A. U. dePencier, M.A., D.D., D.B.E., Archbishop of New Westminster, speaking today at the fourth annual conference of the clergy and laity of his diocese, in St. James' Hall.

His Grace and the Right Reverend Charles deV. Schofield, M.A., D.D., Bishop of Columbia, were the only speakers at the afternoon session of the conference. Both dealt with aspects of the Lambeth Conference. Bishop Schofield gave a comprehensive sketch of the background of the conference, and His Grace dealt in detail with the work of the committee on Christian unity, of which he was a member.

His Grace first referred to the 1920 Lambeth Conference, from which the bishops of the Anglican communion had sent out an appeal to all Christian churches for a closer fellowship. At the 1930 conference, this appeal began to show fruit.

STUMBLING-BLOCK

The great stumbling-block to union between the episcopalian and the evangelical churches, he said, was the question of the ministry. In the episcopalian, the ministry was apostolic, created by the laying on of hands by the bishops, while

in the other churches the ministry was prophetic.

At the Lambeth Conference, he went on, the Church of Scotland, newly united, and the Free Churches of England, including the Wesleyan, had conferred with the bishops on this very matter, but as their proposals had been abstract rather than practical, the bishops had preferred to give their attention to the new movement in South India, whereby the United Church of South India was being created. This was the union into one communion of the Presbyterian, Methodist, Congregational and Anglican Churches, with the episcopal ministry to prevail.

This was an experiment which would be watched with breathless interest by the whole of Christendom, he said. And it was on just such a basis that the Anglican communion desired union. What the Anglican communion wanted, was not a federation of churches, but real union, he said.

BISHOP SCHOFIELD

"The Anglican Church is quite truly standing in the centre of a world-wide movement toward union," said Bishop Schofield, who had come specially from Victoria to address the conference.

"And by the way," he said, "we will have to stop talking of the Anglican communion and find some other name for it, because it has become a world-wide section of the catholic church of Christ."

He believed the Lambeth Conference had become a great influence not only in the Church of England, but in the whole Christian world. Interest in it was universal. Among the 308 bishops who attended, were every color and almost every race. Every conceivable opinion was frankly expressed.

BRITISH GOV'T WILL
REMOVE PROTECTION
FROM DYE INDUSTRY

LONDON, Nov. 19.—The Dye Stuffs Importation Regulation Act, under which a measure of protection has been afforded the British dye trade, will be allowed to lapse after January 15, it was announced in the House of Commons today by William Graham, president of the Board of Trade.

He said his action was decided upon by the Government as the result of a report by the dyestuffs development committee which held that the industry was on a substantial footing and able to take care of itself.

Graham said the committee report showed the industry has reached the stage where it is capable of meeting a very large proportion of the requirements of dyestuffs consumers in the United Kingdom and of carrying on an increasing export trade. He said it also showed manufacturers have indicated their ability to meet normal foreign competition in respect to prices.

"It appears," he said, "that the object of the act has been attained."

RIGHTS OF PROVINCES

One of the decisions of the Imperial Conference was that the Colonial Laws Validity Act should be repealed whenever such repeal is agreed to by the Provinces of Canada. This act was passed in June, 1865. Its purpose and intent were to remove doubts as to the validity of colonial laws and it affects any parts of the Empire which have legislatures. The title of the law is now a misnomer since sections of the Empire have been changed into self-governing Dominions. The chief clause in the Colonial Laws Validity Act is that reading as follows:

"Any colonial law which is or shall be in any respect repugnant to the provisions of an act of (the British) Parliament extending to the colony to which such law may relate, or repugnant to any order or regulation made under authority of such act of Parliament, or having in the colony the force and effect of such act, shall be read subject to such act, order or regulation, and shall, to the extent of such repugnancy, but not otherwise, be and remain absolutely void and inoperative."

On the face of it there is common sense in the proposal that such a law should be repealed. Looking more deeply, however, there is one obstacle that stands in the way, namely, the possibility that its repeal might make the British North America Act, the foundation of Confederation, inoperative. It is on this account that the decision has been reached that before the Colonial Laws Validity Act can be repealed, with the sanction of Canada, the provinces must be consulted and must acquiesce in such a decision. If it were not that the provinces are given this right it is easy to conceive of a Federal Parliament changing the constitution under which the Dominion came into existence. In fact the rights of provinces could be flouted away, for these rights are now as definitely protected by the Colonial Laws Validity Act as they are by the British North America Act. Thus, before the repeal of the former, some new safeguards are required. The assurance must be forthcoming that the rights of the provinces under Confederation, would be respected to the full if the Colonial Laws Validity Act is to be discarded.

INCREASING EFFICIENCY

It is a matter that cannot be regarded with other than pride by our citizenship as a whole that the enforcement of law and order in British Columbia is indicating greater efficiency than for a number of years. This can be explained in a measure because of the manner in which the Provincial Police is being rounded out into one of the finest bodies of its character to be found anywhere. Since Mr. R. H. Pooley took office as Attorney-General it has been his settled policy that there must be no politics in connection with the administration of the Provincial Police. He has adhered to this decision to the letter. It is redounding to the advantage of British Columbia. In Colonel J. H. McMillin, the Commissioner of Provincial Police, Mr. Pooley has an official on whom he can place thorough reliance. He realizes this and is not interfering with the manner in which the force is carrying out its duties. Not only in the unorganized districts but in those municipalities where the province has undertaken policing duties there is nothing but praise for the administration. The men are smart, attentive to duty, painstaking, conscientious and always on the job. They take a pride in their work, which means that there is loyalty and confidence in the administration under which they operate. Mr. Pooley deserves hearty congratulations on the results of his policy in connection with this branch of his department. The Provincial Police Force is not only a credit to British Columbia but to Canada as well.

AN EASY ROAD TO WEALTH

In one respect the United States is appearing to better advantage than in former periods of business depression: much less has been heard of dubious and revolutionary remedies. On a former occasion William Jennings Bryan came near to being elected president of the country as the champion of a proposal to abandon gold as the basis of currency, and to engage in the free coinage of silver on an artificial valuation. He diagnosed the economic ills of the country as being due to an insufficient volume of money in circulation, and won the Democratic nomination by a speech in which he described the people as being "crucified on a cross of gold." In an earlier generation, the creation of fiat paper money was advocated, and to some extent put in force. In both cases what was sought was what today would be termed "inflation of the currency." There were notable examples of this in post-war days in France, Germany and Italy.

There is no widespread movement in the United States today in support of such proposals as those mentioned. It would not be true, however, to say that no similar remedies have been indicated and no similar remedies advocated. One important news agency is circulating daily articles by a writer who calls upon the Federal Reserve Board to take action to force into circulation a much increased volume of currency. This, he argues, would result in raising prices of commodities all round, as measured in dollars; and he contends that it would also make it easy for foreign countries to borrow large sums in the United States. General prosperity is to follow. What a simple and easy way to bring welfare to the whole world! Can we be surprised at the indignation expressed by this writer at the failure of the Federal Reserve Board to adopt this course? It is the moderation of the proposal that is surprising. Instead of expanding the volume of currency so as to raise prices only to a limited extent, why not increase them twice as much, or ten times as much, and thus make everyone correspondingly happier and wealthier. Unfortunately there are one or two difficulties in the way, which seem to have been overlooked. In Germany, for instance, after the war,

there was for some time a very rapid increase in the value of the German mark. The prices of commodities, as measured in marks, mounted high, until they reached amounts which forced the holders to constitute wealth. To a lesser degree the same thing happened in France and other countries. The result, however, was not that these countries became prosperous; it was that they were brought to the brink of ruin. Numbers of their inhabitants were driven to the brink. The workingman's savings capital of those who had invested in government bonds, were all swept away. The value of thousands of marks, saved with difficulty over years, sank to the value of less than one. Again, if prices of commodities are raised all round, how will that help the farmer? He can get no more of the commodities he needs, in exchange for a bushel of wheat, he could before. His difficulty, mainly, is that there has been an equal, all round reduction in prices, but that his product has declined in value very much more than the price which he has to receive. What applies to the farmer in the same way, though not perhaps the same extent, to the urban man, the landowner engaged in those basic industries which the whole commercial fabric rests on is to be feared that the proposed remedy is efficacious than its authors suppose.

B.C. AS PUBIC CENTRE

The presence here representative of the well known publishing of J. M. Dent & Sons, Limited, is a reminder that the establishment by that firm of a branch in Vancouver is due to the energies of Mr. Hinchliffe, the Provincial Minister of Education. Mr. Hinchliffe took the matter up with Mr. Dent when the latter visited British Columbia eighteen months ago, and now there is such establishment. The publishing house has particularly encouraged in its efforts to give the province the greatest possible benefit to Canadian and British publishers by the school textbooks and the libraries of the province. Thus one result of this, pushed forward in such an admirable way, Mr. Hinchliffe, is a welcome addition to the publishing industry of British Columbia.

For many years Toronto has been recognized centre of book publishing and it is only in a small way that efforts at direction have been spreading to other cities. No British Columbia has been recognized by one of the best known publishing houses in the world, which he had a hand in this matter for which the Minister of Education deserves every congratulation. The doubt that his policy in deciding on Canadian and British textbooks for our schools will give incentive to the Vancouver branch of J. M. Dent & Sons, Limited, to extend its business to this quarter of the Dominion.

Mr. Mackenzie King, in his address to the Imperial Conference, the Prime Minister is speaking for the representative of the whole of the Dominion. The Liberals in Canada would seem, we developed the policy of the Imperial Conference. They do not offer a good one. On the other hand, the criticism of Great Britain is to the effect that Mr. Bennett has offered "four pence the penny," which is interpreted by our Liberals as not good enough for the Dominion.

Another fervor in another part of the world might mean the end of the world. An infant hope—the end of a high endeavor—or rare, rare, rare. Here all the rainbow shadows run. Fading in haste, we last hue is done, To dark, aloof from without a cry.

Corporal substance, a large adieu. And gone with the sighs and trumpeting; But this goes silent, ever few. Departing on unwhispered wings. As if beyond the world it knew. Wide skies await repeated things.

—W. J. Gibbins, Nation and Athenaeum.

In books lies the whole past time; the articulate audibly it has altogether vanished like a dream.—Thoreau.

We never despise but when we do not reflect upon ourselves.—Bacon.

Note and Comment

By R. B. D.

To be or not to be, that is the question: Whether 'tis nobler in the mind to suffer The slings and arrows of outrageous fortune, Or to take arms against a sea of troubles, And by opposing end them. —Shakespeare.

The rapid growth of Vancouver has been one of the wonders of the world. The rapid increase of crime in Vancouver is the despair of the city police force and the perplexity of the people of Vancouver who do not know how to do it. Thus there are penalties attached to rapid growth of population as well as profits derived from rapid expansion of business. Vancouver has never had her light under a bushel. She has advertised herself throughout the world as the Canadian City of Destiny. Her fame has attracted population, and the population her fame has attracted does not appear to have been entirely of a desirable class. The human elements of good and evil "in her midst" seem to be mixed, although, of course, the good elements are predominant notwithstanding the increase of crime and the tale told at the recent sessions, from which a moral has been drawn by the die-hard or deluded prohibitionists of the United States.

The alleged increase in crime in Vancouver has been attributed by a Spokane newspaper, which, of course, as a newspaper, should know better, and probably does know better, to the liquor laws of Canada. The moral drawn from the unusually large list of criminal cases tried at the Vancouver assizes is that the Governmental control and sale of liquor in Canada has proved a failure. But the same laws applied to the Governmental control and sale of liquor in Victoria, and there were no criminal cases to be tried at the recent Fall assizes in Victoria. The judge who formally opened the assize court in this city was presented with a pair of white gloves, historically emblematic under the British system of justice of the utter absence of crime.

The deplorable case of Vancouver, which may not be as bad as it is painted, may be attributed to the fact that evil communications corrupt good morals. If Vancouver were to adopt some system of lifting the population which is drifting into it from all parts of the world, that process might solve the perplexing problem of the growth of crime as well as some other problems which may prove equally perplexing. Vancouver always has had what is called a large floating population. Vancouver has direct connection by land and water with all parts of the world. There are people in all parts of the world reading the news of business and looking for opportunities which are closed to them in their own particular parts of the world. Multitudes of these people float or drift into Vancouver, attracted thither by visions of golden opportunities in this comparatively new part of the world. When times were what is called good, those elements usually could find something for their hands to do, if they really were anxious to find employment. But when times are bad, as they are now, jobs cannot be secured so readily, and the floaters are numbered among the unemployed. The consequence is that Vancouver is credited with having the largest number of idle people of any city in Canada, and that Vancouver is making larger demands upon the Provincial and the Federal treasury for funds for relief of the unemployed than any other city in Canada.

Vancouver has never been noted for her modesty. She is not modest in her demands upon the funds of governments have set aside for relief of the unemployed. We fear that if the demands made by Vancouver were accorded to there would be little left in the funds for the relief of the unemployed in the other cities of Canada. But in the interests of the taxpayers of Canada, the Governments have established conditions under which relief funds shall be distributed. Vancouver cannot be given what is called "lump sums" to be scattered abroad without check or accounting. If we are to set up in Canada which is practically a dole system, care must be taken that none of the abuses which have crept into the British dole system shall creep in here and create problems more difficult of solution than the unemployment problem.

If the conditions established by the Governments are complied with, all the idle people in Canada may not be given immediate employment, but there need be no hunger, neither need there be any privation, for any citizen of the country. That is something altogether unthinkable, and which would be altogether intolerable in a country where there is a superabundance of food and no lack of any of the other necessities and comforts of life. In less happy times the conditions prevailing to-day.

day would have been regarded with something like indifference by the more fortunate classes of the population. The unfortunate would have been left to beg or starve, struggling along against the decrees of fate until the dawn of brighter and better times. That cannot be done now. A new sense of community responsibility has been developed. May we be permitted to extend expressions of sympathy to Vancouver in her troubles, apparently more serious troubles than any other city of Canada is experiencing, coupled with an expression of hope that the end of the Winter will bring an end to all Vancouver's tribulations. Winters in British Columbia are usually short and mild.

A LITTLE BIRD

There's a little bird a-nesting, where my roof Puffs over honey walls, that keep the warm; And all her notions offer me reproof; She sets me such example to reform.

She rises early, every day; She sings her little head off, sweetly too; She's ever blithe and happy, good and gay; Does well her daily duties, not a few.

With hope, her little breast is quite puffed out; she sings that tiny little nest; With dutiful endeavor, flies about; To furnish "home," with feathers of the best.

She never grumbles, if the day be cold; She never sighs, if sunshine be too bright; She never rants, nor storms; unknown to scorn; She chirps and cheeps and sings, "It's all, all right."

And, every day, her chosen "bird-mate" With her to build their home, and very soon, Five little eggs, as blue as blue the skies, Will there be laid; and lo! the sun at noon, That pierces windowpanes, close to my roof, Will lift to sweetest lilt, lovely sound; And, though I haven't approach, to give you proof, I know five little birds are there.

Ah, me! like other oldish folk I know, I wish I were a little birdie, too. Oh! had I built a nest, years ago, A little nest, in safety, "just for two!"

How much more really had life been passed! How much more happily—to say "Good-bye!" To all the humans find their plans harassed, If only I had learned to chirp and fly!

—Kilbee Gordon.

The Rhyming Optimist

By Aline Michaels

FOG

Grey veil on veil, the fog is closing in; About our world that shrinks each hour; The door-yard trees grow spectral now and win; A ghostly beauty never theirs before.

Fog creeps and clings about the vines; The hedge Is dim and grey that was so fresh and green; A wisp of fog twines up the window ledge; And blurs the pane's transparency and sheen.

Each footfall seems remote, each voice sounds strange; As though the fog's barriers interposed; To work in all familiar things some change.

As though dear doors were locked, old ways were closed.

Grey veil on veil, the fog is closing down, Earth is an eremite in sober gown.

the non-inclusion of the British flag was the declared policy of the Government, there was an equally determined section of the people that flatly refused to acknowledge any South African flag from which the future relations between black and white, a problem that still cries aloud for statesmanlike handling. The names of Botha, Smuts and Hertzog alike are unconnected with any mastery attempt to grapple with this greatest and gravest of all South African questions. If the conduct of affairs that concern three-fourths of the population of the Union be the acid test of statesmanship, it must be confessed that, while united South Africa breeds politicians by the score, she has yet to produce her first great statesman. If the present Premier and the leader of the opposition be regarded as candidates for that honor, the die is doubtless loaded in favor of Smuts. A mere politician can never be a statesman. A philosopher may perhaps become one.

VANCOUVER JOBLESS NOW NUMBER 9,835

VANCOUVER, Nov. 19.—As a result of the announcement that unemployed registration would cease on Tuesday and that lists at the relief office would form the basis of work provided under the "million days' work" scheme, registration on the final day, Tuesday, brought the total to 9,835.

Of the total on the departmental lists, 4,466 are married and 5,229 single. Of these, 1,198 are at work and thirty more will start shortly. Women registered number 128.

Doctor (pompously)—My dear sir, it's a good thing you came to me. Patient—Why? Are you broke?

FIFTY YEARS AGO TODAY

(From The Daily British Colonist of November 20, 1880)

There were five degrees of frost on Thursday night and the barometer stood at 30.13, with more diversities.

The steamer Myrtle, having received a thorough overhauling, took the place of the Corbin City on the East Coast route and started yesterday on her first trip of the season.

No good results can flow from an excited rush to each river. The ancient channel is being quietly prospecting and the results will soon be made known. At present there is nothing of value known of the discovery. The discovery claim leaves this morning and will commence striking a shaft on Monday to test their ground.

Our statement a few days ago respecting the second demand upon this Government by the Canadian Government for the public lands was incorrect. It is now amended. The demand of last Tuesday has not been repeated, but the British Columbia Government has been requested to define the military lands reserved for the Imperial Government many years ago, and which have been lately covered by the Imperial authorities to Canada.

Newspaper Correspondent Is Dogged by Spies While Investigating in Poland

Ukrainian Peasants Are Terrorized for Alleged Acts of Sabotage

By NEALEY PARSONS

(Copyright, 1930, by The Chicago Daily News Foreign Service)

Next morning, before I was out of bed, there was a knock on the door and in slouched a furtive, unshaven figure who in a hoarse voice asked me what I thought about the village of Gaje. Had the peasants told me everything? When I said that it was none of his business, he then asked me how could a Ukrainian get to America who had been refused permission to leave by the Government. I told him to clear out of my room.

A few hours later a voice over the telephone, in broken English, asked me did I want an interpreter. "I speak fine English,"

Frederic Voight, correspondent of The Manchester Guardian, got off the train from Warsaw that morn-

ing and came to my room. When we came down to the hotel lobby, we found five spies perched there waiting for us. They looked so hungry about midnight that we almost asked them to have some supper.

PEASANTS FRIGHTENED

I merely mention this to show the absurdity of free talks with any persecuted Ukrainians, because while

of Public Security for the Lwow Voivodeship, gave me a personal card that afternoon to show police-

men in the villages my authority, it was also a certainty that we could not approach a single village without

out spies dogging us and immediately informing the police there, upon whose appearance the terrified

peasants would refuse to open their mouths—as had happened to me upon my arrival with a policeman at Gaje.

M. Rogowski asked me to give a fair statement of the Polish side, which I was only too anxious to do.

In Eastern Galicia, the Nationalists are usually tabulated by religions—Roman Catholics are Poles;

Greek Catholics of the Uniate Church are Ukrainians; Jews are Jews; Orthodox Churchmen are Ruthenians. In the Lwow Voivodeship, there are some 900,000 Poles and more than 1,000,000 Ukrainians.

The Poles are mostly in the towns; the Ukrainians are peasants, and rich landlords are Poles or Jews.

HEAD OFFICE IN BERLIN

Most of the trouble has been around the towns, where pupils of secondary schools—always susceptible to the heroics of nationalism—have come under the influence of the "U.O.W." secret Ukrainian military organization, whose headquarters are in Berlin and which, according to M. Rogowski, is largely financed with German money.

The U.O.W. works on a three-man system—never more than that number are initiated into any plot. Such agents have robbed the Government mail van at Bobrka in July, a village less than twenty miles outside Lwow, killing one policeman. One of the bandits who was shot turned out to be the son of a Uniate priest. At the present moment, twenty priests are in prison awaiting trial in connection with the peasant sabotage.

FIVE SLAIN BY POLICE

The peasants of the three Eastern Galician voivodeships had, so M. Rogowski claimed, started 155 farm fires and committed ten cases of telephone and telegraph wire cutting—one isolating the city of Lwow for hours—and killed one policeman. For this the Government made 852 arrests, 800 of these persons being now in prison awaiting trial, and killed five Ukrainians. Three of these were done to death in Mexican fashion—shot while trying to escape—and the two others "just died."

Farm fires, M. Rogowski assured me, had cost insurance companies more than 9,000,000 zlotys (\$1,012,500).

Against this, the Metropolitan, Bishop Szypczyk, perhaps the only Ukrainian who dares to speak openly, told me that he had conclusive evidence that at least three peasants had died as a result of floggings; that he estimated there were at least 1,000 Ukrainians in jails, and that in addition to the eleven brutally beaten victims lying under his protection in his own hospital, there were some fifty patients coming to have their wounds dressed and hundreds of others in the villages were unable to get there, many lying in their own cottages without proper medical treatment.

BUSINESS IS RUINED

Polish soldiery have virtually ruined the great business enterprise of the Ukrainian, either ransacking, wrecking or crippling them so that they are unable to give further credit. It is estimated that some 800 villages have been subjected to persecutions in one form or another.

As I have said, the story cannot be told with mere statistics. The dramatic figure of the huge, grey-bearded Szypczyk in his palace behind walls lined with paintings of peasants lying in the hospital in the courtyard, tender sisters of mercy removing the bandages; an old man of sixty-two years, the tall, thin soldier rode into his village, herded

the people into a barnlike meeting house, flogged twenty men until some fainted only to be revived with buckets of cold water and flogged again, and exclaiming "but when I fainted I did not feel any more"; spies waiting in a taxi outside—and my own feelings now as I write this about the safety of the peasant who dared police vengeance to come into Lwow to see me from Gaje.

DEATH OF TIUTKU

"I shall probably be taken by the police as I leave the hotel door," he said grimly, "but we want to make sure you know the truth about what they did to Tiutku." (Michael Tiutku, youth of Gaje, was laboring by a group of soldiers to whom he had lied about the existence of a machine gun in a timorous moment.)

I told him that the Polish authorities had already admitted his death—heart failure.

He gave me a grim smile. "They beat him," he said, pointing to my black comb on a table, "until he was the color of that."

Poland, where one man out of three belongs to a minority of some sort or another—usually truculent—serves a double purpose: understanding and even sympathy. But nothing can excuse brutalities the soldiers have been allowed—one feels tempted to say, encouraged—to inflict on the innocent Ukrainian peasantry. This is the firm conviction I carry away from Lwow.

One Ukrainian naturalized American was among those severely beaten. He has since left the country and I understand he is claiming \$25,000 damages against the Polish authorities. In an account published some time ago in the Warsaw newspapers, the authorities accuse him of being a member of a terrorist organization. An investigation has been demanded of this case, which should prove very interesting.

ONTARIO EXHIBITORS TAKE APPLE PRIZES

W. L. Hamilton, of Collingwood, Captures Bulk of Honors at Royal Winter Fair

TORONTO, Nov. 19.—Competition from both British Columbia and Nova Scotia failed to stop Ontario from carrying off the bulk of the apple awards at the Royal Winter Fair. W. L. Hamilton, of Collingwood, Ont., captured the bulk of the honors, winning among other things the prestigious single box for the best fifty-box lot and a whole string of firsts. It was in the single-box class that the keenest competition came. In Delicious, first and second went to the Associated Growers of British Columbia.

W. Smith, Burlington, Ont., came first in Golden Russet, with Borden Fruit Company, of Canning, N.S., second.

In Greening, one and two went to Gallagher Farms, of Aldershot, Ont. While the Associated Growers took similar prizes in Jonathan, Colin Smith, Burlington, led in Kings, with C. R. Terry, Clarkson, Ont., second. Terry won first in the Baldwin class, with W. E. Murray, Centreville, N.S., second. Hamilton had one and two in McIntosh and the Associated Growers the same on Spys.

C. C. Tyrell, of Markham, Ont., led in the Tointon class, Winnings were about the same in the larger lots, Ontario growers winning in McIntosh throughout the show, and also Spys and other not so competitive varieties, while British Columbia scored in Delicious and Jonathan.

Native Sons' Session

The Native Sons of Canada are holding a special session tonight at View Street, commencing at 8 o'clock sharp. Mr. Reginald Hayward, M.P.P., will preside.

A.O.F. PRESENTATION

The presentation of an A.O.F. service medal to J. J. Wilson at the recent meeting of Court Vancouver was carried out by Bro. Henry Callow, and not Carlous as previously reported by a typographical error.

Rare Stamps in Ontario Museum

Donations Still Being Turned in For \$20,000 Fund

Objective sought — \$20,000.00 Amount collected — 18,292.48

Balance required — \$1,707.52

Yesterday's contributions — 63.60

The Armistice Period—Red Cross committee appeals for donations to wipe out this deficit.

Contributions, large or small, may be sent to the honorary treasurer, R. F. Taylor, Canadian Red Cross Office, 317 Belmont House, Victoria. Further donations are: J. E. Palmer & Son, \$10; Mrs. Nalms and Mrs. Lampman, \$2; Joint collection, Wilkinson United Church, St. Columbia and St. Michael's Anglican Churches, \$9.98; Friends, \$1; Empress Hotel employees, \$4.50; A. and M. Goodwin, \$10; Friend, \$20.15.

THE funeral of John Thorburn, student of Victoria High School, who was accidentally killed on Sunday morning at Cadboro Bay, was held on Wednesday afternoon from McCall Bros' Funeral Home, Rev. W. G. Wilson, D.D., conducted the service, during which the hymns "Nearer, My God, to Thee" and "I Need Thee Every Hour" were sung.

Among the many friends attending the service were H. Despard Twiss, M.P.P., Principal Ira Dilworth of the Victoria High School, with Douglas Wallis and Miss Hazel Sargent, of the High School staff, also Arthur T. Hunkin, principal of George Jay School, and members of the Victoria organization.

A large number of the students of Division 25 of the High School, which was dismissed at noon, attended in a body, and with pupils from George Jay School, carried the many beautiful floral tributes.

Interment was made in Royal Oak Burial Park, with the following as pallbearers: Lynn Patrick and Gordon Thorne, representing the prefects and the Rugby team of the High School, and William Hudson, Neil Cameron, Jack Croft and Ira Brown, representing the class and football club to which John Thorburn belonged.

MRS. A. G. SMITH DIES AFTER SHORT ILLNESS

The death occurred suddenly at an early hour yesterday morning at the family residence, 2774 Second West, Vancouver, of Verna Smith, wife of Arthur G. Smith, former Deputy Attorney-General for British Columbia and now Registrar of the Land Registry Office, Vancouver.

Mrs. Smith was the third daughter of the late H. F. Heisterman and Mrs. Heisterman, of 1521 Shasta Avenue, Victoria. She leaves her husband, three sons and three daughters, all of Vancouver, and three sisters, Mrs. D. R. Kerr, Mrs. R. E. Brett and Miss Olive Heisterman, and two brothers, B. S. Heisterman and H. G. S. Heisterman, all of Victoria.

The funeral will take place in Vancouver tomorrow.

Obituary

BLACK—The funeral of Douglas Russell Black, who passed away on Monday, will take place this afternoon at 2 o'clock from the Sands Funeral Chapel. Canon F. A. P. Chadwick will officiate, and the remains will be laid to rest in the Royal Oak Burial Park.

KENNY—Funeral services will be conducted this afternoon at 3:30 o'clock for Mildred Kenny, who passed away at the Royal Jubilee Hospital on Monday. Rev. P. C. Chapman will officiate, and the remains will be laid to rest in Ross Bay Cemetery.

NING—The funeral of Baby Ning, daughter of Mr. and Mrs. Ning Fun, of 848 Johnson Street, took place from Sands Funeral Chapel yesterday. Burial was in the Chinese Cemetery.

OLIVER—Funeral services were held yesterday afternoon at Sands Funeral Chapel for Archibald Charles Douglas Oliver, who died on November 13 at his home in Esquimalt. Rev. F. C. Chapman officiated. There were many beautiful floral tributes. The hymns sung were "Rock of Ages" and "Lead, Kindly Light." Pallbearers were W. Saunders, W. R. White, George Wooten, E. E. G. Astell, A. Knott and J. Reid. Interment was made at the Royal Oak Burial Park.

DICKINSON—There passed away in this city on Tuesday, Lionel Dickinson, of 1261 Johnson Street, aged seventy-six, born in London and a well-known resident of Victoria for the past fifty-five years. Mr. Dickinson leaves to mourn his loss his widow, of the above address, also five sisters in England, and a sister in Australia. The remains are resting at Hayward's B.C. Funeral Chapel, from where the funeral will take place tomorrow afternoon at 2 o'clock. Interment will be made in Ross Bay Cemetery.

FRIESTLEY—The remains of Mrs. Harriet Friestley are resting at Hayward's B.C. Funeral Chapel, from where the funeral will take place this afternoon at 2 o'clock, under the auspices of the Eastern Star Lodge. Interment will be made in Royal Oak Burial Park.

BENTON—The funeral of Miss Emma Benton will take place this afternoon from McCall Brothers' Funeral Home at 2 o'clock. Rev. A. deB. Owen will conduct the service, after which interment will be made in Royal Oak Burial Park.

Following the discovery of a live shell in the Hornby, England, Incinerator, city officials have issued a warning against throwing war souvenirs into rubbish cans.

MINISTER WILL MEET LOGGERS

To Discuss Proposal Men Be Returned to Camps for Shelter

CONFERENCE IS FIXED

Measures to relieve distress among British Columbia loggers, suggested by the British Columbia Loggers' Association recently to the Government, will be discussed this week by lumbermen who are to meet Hon. N. S. Loughheed, Minister of Lands at Vancouver.

The lumbermen suggested that the men be returned to their camps, for food and shelter, and refund any sums expended on them in this way, when logging was again economically possible in the camps.

Of 11,000 loggers normally employed in the province, 7,000 were said to have been out of work last week. Much of the unemployment problem of Vancouver was due to the influx of loggers, compounded with other agencies, representatives of the industry told the Government recently.

While no official statement has been made on the matter, it is understood the whole question will be discussed with Mr. Loughheed this week.

HIGH SCHOOL PUPIL'S CLASSMATES ACT AS HIS PALLBEARERS

The funeral of John Thorburn, student of Victoria High School, who was accidentally killed on Sunday morning at Cadboro Bay, was held on Wednesday afternoon from McCall Bros' Funeral Home, Rev. W. G. Wilson, D.D., conducted the service, during which the hymns "Nearer, My God, to Thee" and "I Need Thee Every Hour" were sung.

Among the many friends attending the service were H. Despard Twiss, M.P.P., Principal Ira Dilworth of the Victoria High School, with Douglas Wallis and Miss Hazel Sargent, of the High School staff, also Arthur T. Hunkin, principal of George Jay School, and members of the Victoria organization.

A large number of the students of Division 25 of the High School, which was dismissed at noon, attended in a body, and with pupils from George Jay School, carried the many beautiful floral tributes.

Interment was made in Royal Oak Burial Park, with the following as pallbearers: Lynn Patrick and Gordon Thorne, representing the prefects and the Rugby team of the High School, and William Hudson, Neil Cameron, Jack Croft and Ira Brown, representing the class and football club to which John Thorburn belonged.

MRS. A. G. SMITH DIES AFTER SHORT ILLNESS

The death occurred suddenly at an early hour yesterday morning at the family residence, 2774 Second West, Vancouver, of Verna Smith, wife of Arthur G. Smith, former Deputy Attorney-General for British Columbia and now Registrar of the Land Registry Office, Vancouver.

Mrs. Smith was the third daughter of the late H. F. Heisterman and Mrs. Heisterman, of 1521 Shasta Avenue, Victoria. She leaves her husband, three sons and three daughters, all of Vancouver, and three sisters, Mrs. D. R. Kerr, Mrs. R. E. Brett and Miss Olive Heisterman, and two brothers, B. S. Heisterman and H. G. S. Heisterman, all of Victoria.

The funeral will take place in Vancouver tomorrow.

Obituary

BLACK—The funeral of Douglas Russell Black, who passed away on Monday, will take place this afternoon at 2 o'clock from the Sands Funeral Chapel. Canon F. A. P. Chadwick will officiate, and the remains will be laid to rest in the Royal Oak Burial Park.

KENNY—Funeral services will be conducted this afternoon at 3:30 o'clock for Mildred Kenny, who passed away at the Royal Jubilee Hospital on Monday. Rev. P. C. Chapman will officiate, and the remains will be laid to rest in Ross Bay Cemetery.

NING—The funeral of Baby Ning, daughter of Mr. and Mrs. Ning Fun, of 848 Johnson Street, took place from Sands Funeral Chapel yesterday. Burial was in the Chinese Cemetery.

OLIVER—Funeral services were held yesterday afternoon at Sands Funeral Chapel for Archibald Charles Douglas Oliver, who died on November 13 at his home in Esquimalt. Rev. F. C. Chapman officiated. There were many beautiful floral tributes. The hymns sung were "Rock of Ages" and "Lead, Kindly Light." Pallbearers were W. Saunders, W. R. White, George Wooten, E. E. G. Astell, A. Knott and J. Reid. Interment was made at the Royal Oak Burial Park.

DICKINSON—There passed away in this city on Tuesday, Lionel Dickinson, of 1261 Johnson Street, aged seventy-six, born in London and a well-known resident of Victoria for the past fifty-five years. Mr. Dickinson leaves to mourn his loss his widow, of the above address, also five sisters in England, and a sister in Australia. The remains are resting at Hayward's B.C. Funeral Chapel, from where the funeral will take place tomorrow afternoon at 2 o'clock. Interment will be made in Ross Bay Cemetery.

FRIESTLEY—The remains of Mrs. Harriet Friestley are resting at Hayward's B.C. Funeral Chapel, from where the funeral will take place this afternoon at 2 o'clock, under the auspices of the Eastern Star Lodge. Interment will be made in Royal Oak Burial Park.

BENTON—The funeral of Miss Emma Benton will take place this afternoon from McCall Brothers' Funeral Home at 2 o'clock. Rev. A. deB. Owen will conduct the service, after which interment will be made in Royal Oak Burial Park.

Following the discovery of a live shell in the Hornby, England, Incinerator, city officials have issued a warning against throwing war souvenirs into rubbish cans.

PLUMBERS ENTERTAIN CANADIAN ORGANIZER

The local plumbers and steamfitters of Victoria entertained J. N. Bruce, the Canadian organizer for journeymen plumbers, at an enjoyable smoker, held in Harmony Hall on Tuesday evening.

Mr. Bruce stated that he was strongly opposed to any sanitary measure for a city being given support without considerable thought being given the matter. He congratulated his hearers on the harmony existing between employers and employed in the plumbing trade, and said that he thought conditions in Victoria were unusually good.

W. Thacker, of Thacker & Holt, president of the Victoria Plumbing and Heating Society, J. Casson, James Earl, Robert W. Murdoch and E. Colbert also gave short addresses, while an excellent musical programme was furnished.

Cold in Head, Chest or Throat?

RUB Musterole well into your chest and throat—almost instantly you feel relief. Repeat this every five minutes once an hour for five hours... what a glorious relief!

Those good old-fashioned cold remedies—oil of mustard, menthol, camphor—are mixed with other valuable ingredients in Musterole to make it what doctors call a "counter-irritant" because it gets action and is not just a salve.

It penetrates and stimulates blood circulation and helps to draw out infection and pain. Used by millions for 20 years. Recommended by many doctors and nurses. Keep Musterole handy—jars, tubes. All drug stores.

Miscellaneous Shower

Miss Marguerite Dayton, a bride-elect, was the guest of honor at a miscellaneous shower given by Mrs. Richard Holmes and Mrs. Jack Sykes at the home of Mrs. Holmes, Collins Street, on Tuesday evening. The supper table was set with autumn flowers and tall pink tapers. Mrs. Jack Sykes and Mrs. Richard Holmes presiding. Mrs. W. Donaldson won the "party prize." The evening was spent in games and music. The invited guests were: Misses Marguerite Dayton, Doreen Dayton, Irene Holmes, Eleanor Romold, Dorothy Birland, Ada Sanders, Millie Burr, Ina Hakole, Joan Minto, Mary Thompson, Edna Priffen, Ethel Chasworth, Helen McLellan and Madeline W. Donaldson, S. Weidman, V. Bell, James Davis, Margaret Goode, Allan Robillard, Price, Bernard, J. Sykes and Q. Archmont.

Tea Hostesses

The Misses Noreen and Eileen Smyly entertained at tea at their home on Cavendish Avenue yesterday afternoon in honor of Miss Phyllis Fowler and Miss Mary Langley, two much-loved brides-to-be. The guests were Mrs. W. E. Speed, Mrs. Gordon Hansen and Misses Yoder Pemberton, Beryl Nelson, Helen and Betty Streafeld, Barbara Hinton, T. and Peggy Pressy, Lorna Lewin and Edith Ford. On Tuesday afternoon Miss Fowler and Miss Langley were the guests of honor at a tea given by Mrs. W. E. Speed at her home on Windsor Road.

Receives Degree

Word has been received that Mr. Thomas Patterson West, fourth son of Dr. C. H. West, of Mayne Island, received the degree of bachelor of science in civil engineering at the University of Saskatchewan, the degree being conferred at a special convocation held at Saskatoon on November 8. He was formerly a student at Victoria High School and Victoria College and was one of the spare men on the Colonist hockey team.

B.C. Women in Special Work

Among Vancouver Island women who are engaged in special work and whose exhibits have attracted great interest and admiration here, is Mrs. Frank Holland, A.R.I.B.A. and A.A. diploma, widow of the late Frank Holland, of Victoria, and formerly Miss Sylvia G. Mobley, of Compton, near Winchester, England.

Mrs. Holland's special training in the architectural schools of London, where she completed a five-year course under Howard Robertson, the celebrated architect, led to her being chosen to work with the architectural firm of Easton & Robertson in designing the British Pavilion at the Paris Exhibition of Industrial Art in 1925. The work entailed in this undertaking was by no means light, says Mrs. Holland, who recalled the "thrill" of rushing the plans each day to the Admiralty Office, whence they were dispatched by King's Messenger from the Embassy by airplane to Paris for inspection.

While with Easton & Robertson she worked out the conversion of the mews of a large London house in Eaton Square into a small modern residence, a job, very typical of what is taking place in London now; also on the new Horticultural Hall, one of the most advanced reinforced concrete buildings in London, which has now been completed.

She was also associated with the Hampshire County architect at the Castle, Winchester, chiefly concerned with work on police stations, schools and surveying over the chalk downs.

Since coming to Victoria, her two small children have taken much of her time, though she is now doing a good deal of work, pottery painting, miniature and portrait work and designing rugs and needlework. These varied activities prove that it is possible for women to do more than one job, and do it well.

While designing and portrait work are claiming Mrs. Holland's attention, the time being the practice of architecture is her main interest, and she hopes to continue her profession in a few years' time.

General and Mrs. Money left for Victoria on Wednesday and will return on Saturday.

Mr. and Mrs. F. Whitmore were the guests of Mr. and Mrs. C. Forster at Grandview, on Sunday.

Mrs. C. Bailey has returned to Qualicum Beach after visiting in Vancouver.

Port Alberni
Mr. and Mrs. J. J. Burke, of Alberni, announce the engagement of their youngest daughter, Nora Charlotte (Honey), to Mr. Charles Galliford, of Great Central Lake, near Compton, near Winchester, England.

The wedding will take place on December 5, at Alberni.

Dr. C. M. Pines has returned to Port Alberni after a six weeks' visit up the West Coast.

Miss Lowe, R.N., of the staff of the West Coast Hospital, is spending her vacation visiting in Vancouver.

In honor of Miss "Honey" Burke, whose wedding will take place shortly, the Misses Mamie and Helen McDonald entertained on Wednesday evening with a shower for the bride at their home, Sixth Avenue. A small Christmas tree centred the supper table and concealed many beautiful gifts. The guests included: Miss Honey Burke, Mrs. H. Estlin, Mrs. E. B. Coulthard, Mrs. Harold Haynes, Mrs. Clifford Lee, Mrs. Stanley Knowles, Miss Neil Burke, Miss Anne Burke and Miss Nan McCranor.

Mr. and Mrs. Lewis Robinson have moved to Chemainus from Nanaimo, and intend making their home here.

Sidney
Mr. L. Bowcott, of Victoria, is a guest at the home of his sister and brother-in-law, Mr. and Mrs. J. Ashley, Fifth Street.

Mr. W. Crossley, of Victoria, an old-time resident here, is spending a few days in the district.

Miss Dorothy Prince, who has been visiting at the home of Mr. and Mrs. W. Bowers, Fifth Street, has returned to Victoria.

Long Beach, Ucluelet
Rev. J. Leighton, after spending the week-end in Ucluelet, returned to Tofofo last week.

Mr. G. B. Hillier is visiting in Victoria before leaving for Portland, where he will spend a short holiday.

Mr. J. Kampe left last week for Vancouver and Victoria.

Mr. H. J. Hillier left last week for Vancouver.

Mr. J. Mulholland, of Victoria, has been a recent visitor in Ucluelet.

Qualicum Beach
After spending the last two months at Qualicum Beach and Vancouver, Captain and Mrs. Harold Money have returned home to New York.

Kitty McKay
By NINA WILCOX PUTNAM

Sandy wished to catch the early train to London, and being a very heavy sleeper in doubt if he would wake up sufficiently early. For a long time the Scotsman tried to think of a method whereby he could be called, but each, he soon discovered, necessitated a tip. Finally, he decided to send himself a letter without a stamp.

That night he went to bed and slept soundly.

Early the following morning there came a thunderous rap on the front door. The Scot threw open the bedroom door and stared down at the postman.

"Here's a letter for you without a stamp," said the latter. "There's three pence to pay."

"Take it back," replied the Scot angrily. "Carriers like that who don't deserve to be encouraged."

The girl friend says that no special can ease the ear troubles of a sympathetic listener.

PURITY FLOUR

Anniversary Celebrated By Post No. 3

The Native Daughters of British Columbia, Post No. 3, were hostesses yesterday afternoon to a large number of guests at a tea party at the Y.W.C.A. The affair was arranged primarily to celebrate the seventy-second anniversary of the day on which Governor Douglas became Governor of the new colony of British Columbia. Dressed in rose pink crepe de Chine with hat to match, Miss H. Neelands, chief factor of Post No. 3, Native Daughters of British Columbia, received the guests, prominent among whom were such pioneers as Mrs. Mary Spencer Palmer, accompanied by her daughter, Mrs. John Rogers, Mrs. R. B. McKicking and Mrs. John Fullerton.

The drawing-room and sitting-room were effectively decorated with ferns and yellow chrysanthemums. Mrs. J. A. MacKintosh, with Mrs. F. Webb, presided over a prettily-arranged table of sweets and disposed of tickets for the patchwork quilt made by members of the post. Mrs. T. P. Waters, vice-factor, arranged a delightful programme in which Miss Dorothy Parsons rendered two vocal numbers, choosing "Milk and Honey" and "Days of Gladness," responding to encores with "Birds at Eventide" and "I Love the Moon." Mrs. E. M. Foot's ensemble of promising young musicians played "Selections From Robin Hood," "Folk Song" by Mendelssohn and "Swan Lullaby."

The orchestra was composed of Frances Farquhar, Winnifred Bingham, Marion Plumb, Leslie Jordan, Tommy Johnston and Tom Anstey. An interesting violin duet was given by Frances Farquhar and Leslie Jordan. Two much-appreciated items were dances by a little pair, Dorothy Welham and Beverly Armstrong, pupils of Miss Florence Clough, a member of Post No. 3. Their first number was a tap dance, followed later by a minuet in suitable old-fashioned costumes.

The tea table was attractively decorated in yellow and white, the colors of the post, chrysanthemums of the two shades in a silver basket being used as a centerpiece, with yellow tulips and four tall lighted tapers in water lily vases. At each corner of the table stood a silver vase holding yellow chrysanthemums and fern. Mrs. J. S. Kinsman poured tea and Mrs. H. A. Beckwith presided at the coffee urn. Assisting were Mrs. F. Fomeroy, Mrs. William Kinsman and Mrs. C. W. Davies.

Mrs. R. A. C. Grant, at receipt of custom, announced a substantial fund had been received, which will be used for the charitable interests of the Native Daughters. Mrs. Bell, 219 Vancouver Street, won the quilt.

Autumn Suggests Hot Desserts on Menu
By EDITH M. BARBER

With the tang of frost in the air we begin to feel the call for hot dessert. Steamed fruit puddings especially belong to a meal on a cold day. The candy cook will mix enough batter to make desserts for several dinners.

A favorite steamed pudding may be made in individual quarts or in a large mold. It may be called accordingly "chocolate puffs," or "chocolate pudding." This does not keep moist as long as the fruit puddings. The sauce given today goes with either kind of pudding and also with apple dumplings, which are another fall favorite. Steamed puddings are not used as much as baked puddings, but occasionally I feel that nothing tastes quite as good as the first. When we had this at our house some years ago I was very much pleased for a special dessert when you make the pies in tart form.

I am repeating a recipe for butterscotch pie at the request of a reader. This is really a cream pie with more character given by the brown sugar used instead of the usual white sugar with its bland flavor. By the way, a few nut meats are very good in this filling.

Pumpkin pie with orange marmalade: One and a half cups cooked pumpkin, three-quarters cup brown sugar, one teaspoon cinnamon, one teaspoon nutmeg, half teaspoon ginger, half teaspoon salt, two eggs, two cups milk and six tablespoons orange marmalade.

The pumpkin may be steamed or baked, or canned pump. In may be used. Mix in the order given and

Scald the milk and add the sugar and flour mixed with a little cold water, stirring constantly. Add butter and cook over boiling water ten minutes, stirring constantly. Beat the egg yolks and add to the cooked mixture. Cool and fill the baked crust. Cover with meringue made by beating the egg whites and adding the sugar and vanilla. Brown in a slow oven (325 degrees F.).

Meringue: Two eggs whites, beaten stiff, half teaspoon vanilla and one-third cup granulated sugar. Scald the milk and add the sugar and flour mixed with a little cold water, stirring constantly. Add butter and cook over boiling water ten minutes, stirring constantly. Beat the egg yolks and add to the cooked mixture. Cool and fill the baked crust. Cover with meringue made by beating the egg whites and adding the sugar and vanilla. Brown in a slow oven (325 degrees F.).

Biography of Little Princess Written

LONDON, Nov. 19.—If the movies need an offstage voice representing bears or tigers, or sea lions, they might try applying to the King and Queen of England for the services of their daughter, the Princess Elizabeth.

In a biography of the little daughter of the Duke and Duchess of York—probably one of the first biographies with so young a subject—her liking for animal imitations is revealed.

After her first visit to the Zoo, the Princess came to like to practise, with evident delight, all the squeals, roars and whinnies she had heard. "It's the quaintest thing in the world," writes Anne King, the biographer, who formerly was in the household of the child's parents, "to see her sitting on a stool at

home, producing from somewhere under her white bodice the hollow, hungry bark of a sea lion at feeding time."

The Princess Elizabeth is known throughout the kingdom as "Lilibet."

Mr. and Mrs. J. Addison, of Cole Island, announce the engagement of their daughter, Emily, to Mr. Philip Graham, eldest son of Mr. and Mrs. P. W. Graham, of Moose Jaw, Sask. The wedding will take place quietly on November 29.

At the suggestion of his wife, H. B. Sedgwick, of Parralife, Scotland, celebrated his tenth wedding anniversary by reducing rents of farm tenancies 10 per cent.

MOTHER'S ANGELS
WILLIE WILLIS
By Willie Quillen

"I don't see why my answer was wrong. The question asked why boys hadn't ought to ever make a girl an' I said 'because they scratch an' pull hair'."

LITTLE SISTER
By Ruby Holland

"Willie didn't ride his Sandy wif me till I spained I might ferret an' tell mudder he bought it fer the nickel she gave him for a new label."

home, producing from somewhere under her white bodice the hollow, hungry bark of a sea lion at feeding time.

The Princess Elizabeth is known throughout the kingdom as "Lilibet."

GUILD OF HEALTH MEETING
The Guild of Health is holding a fellowship meeting in the parlour of the Y.M.C.A. this evening from 8 until 10 o'clock. All Guild members and friends are cordially invited. There will be a short programme and address to be followed by refreshments.

Lady: "How much are these chickens?"
Butcher: "Six shillings and sixpence, ma'am."

Lady: "Did you raise them yourself?"
Butcher: "Yes. They were five shillings yesterday."

Queen of Peace Church
Esquimalt, B.C.

Biography of Little Princess Written

LONDON, Nov. 19.—If the movies need an offstage voice representing bears or tigers, or sea lions, they might try applying to the King and Queen of England for the services of their daughter, the Princess Elizabeth.

In a biography of the little daughter of the Duke and Duchess of York—probably one of the first biographies with so young a subject—her liking for animal imitations is revealed.

After her first visit to the Zoo, the Princess came to like to practise, with evident delight, all the squeals, roars and whinnies she had heard. "It's the quaintest thing in the world," writes Anne King, the biographer, who formerly was in the household of the child's parents, "to see her sitting on a stool at

ADVISES MORE
EXPORT TRADE
WITH HONGKONGCommissioner Offers Infor-
mation to Local Manufac-
turers' AssociationCANADA'S SHIPMENTS
SHOULD BE GREATER

The establishment of the National Government in China and the stabilization in the value of the silver dollar in the country will in the opinion of Paul Sykes, Canadian Trade Commissioner at Hongkong, do a great deal to induce better trade relations with that country. Mr. Sykes addressed the local branch of the Canadian Manufacturers' Association at a luncheon yesterday afternoon. He advised the making of efforts on the part of Canadians to enlarge the trade with China.

On the subject of the uncertainty with regard to the value of the China silver dollar, Mr. Sykes expressed the opinion that there would be a stabilization. The adoption of the gold standard in India had had the effect of allowing a lot of silver to flow to China, with the result that the silver dollar had risen from 48 cents value to 30 cents. He felt that perhaps this latter price might become the prevailing one.

CANADA'S SHARE SMALL
Out of a total of some \$250,000,000 worth of imports going into Hongkong, only about \$3,000,000 a year come from Canada. With only about 1 per cent of the import trade of that port coming from Canada, he felt that the position of this country as the fifth largest export country was not what it should be.

The reception which had been accorded to Canadian goods received in Hongkong by the British and the Chinese firms had been a cordial one. The standing of Canada through the connection afforded by the Canadian steamship lines, was also an incentive to the extension of this trade. In addition to this, Hongkong native residents who had come to Canada, had been well satisfied with their treatment here, which formed another incentive to trade.

Dealing with the lines of trade interested and the openings which it appeared to him existed, Mr. Sykes said that flour had been Canada's chief export there, but when it was realized that the amount to only about \$1,500,000 to \$2,000,000 worth in a year, there appeared a large field for extension. Ammonium sulphate had been shipped in as a fertilizer to a considerable extent for a time, but this had fallen off. Dry salt herring to the value of perhaps \$750,000 had been received, and there was a promising field for trade in automobiles.

OPENINGS FOR TRADE
There had been some lumber shipped in for years, but there appeared to be an opening for that line for extension. Leather goods, canned articles and cheese and butter should be increased.

Among the lines which he enumerated in which there appeared to be a good opening were canned vegetables, fish and meat, apples, metal alloys, electrical appliances which should increase with the policy of the Chinese Government in the matter of electrical development, paper in various forms, and auto batteries.

It appeared to him surprising that the bulk of canned salmon imported should come from the United States. He also marveled that the lumber trade from Canada was so small. In radio sets from Canada Mr. Sykes felt there should be a better trade.

In moving a vote of thanks to Mr. Sykes, H. Leigh paid a compliment to the work done by the trade commissioner. He felt that there must be the personal touch manifested in connection with the building up of this trade.

W. A. Jameson, the president of the local branch, presided.

What Today Means

"SCORPIO"
If November 20 is your birthday, the best hours for you on this date are from 7 a.m. to 10 a.m. and from 4:30 p.m. to 7 p.m. The one danger period is from 1 p.m. to 3 p.m.

Astrological signs on this date are quite encouraging from a material standpoint, and business progress seems to be assured. On the other hand, there is a prospect of quarrels, bickerings and differences. Children born on this November 20 will, even in their infancy, be original and not imitative. As they mature, they will be of an inventive turn of mind, patient, attentive to detail, and quite persevering. A fair measure of success will attend their efforts.

You are both energetic and active, but are too keen to do everything yourself. You have no confidence in the work of others and prefer to be entirely on your own. This attitude of mind, in view of your exceptional abilities and wide vision, is a drawback rather than an advantage. If you were willing to delegate to others the working out of details, you would be able to accomplish much more than you are.

You are rather impatient, and, as a result of your quick grasp of affairs, you cannot tolerate what to you are long-drawn-out explanations. In this manner, you frequently make mistakes and arrive at erroneous conclusions. Your memory is very retentive, and, although not fooled by external appearances, you are often "at sea" when dealing with members of the opposite sex, as occasionally your emotional nature is aroused and sentiment triumphs over reason.

Your disposition is rather mercurial, and you are, at times, moody and sad. These fits, however, do not last long, and are immediately succeeded by a spasmodic gaiety and a very winning congeniality. On the whole, the stars promise you a life full of interest, and a fair amount of success. The greatest blows in your life will be dealt during youth or early manhood or womanhood.

The evil that men do is soon forgotten by themselves.

Commodity Prices
Are Definitely
Lower

During the last few months Hudson's Bay Company buyers have invested many thousands of dollars in Winter and Gift Merchandise purchased at the new low prices. This is the Company's answer to the question, "How's Business?"

It shows our confidence in business conditions and our expectancy of a busy Winter and holiday season. Victoria people have a considerable buying power and they will spend their money where the best values are offered. A striking evidence of this is shown in the fact that we are serving many more customers than we were last year.

Throughout the whole store customers are buying freely the things they want for gifts and their own use.

NAVY HANDED FIRST DEFEAT OF SEASON

Richard Nets Both Goals as Garrison Downs Tars, 2 to 1

Soldiers Display Fighting Spirit in Close Victory on Home Grounds—Hudson's Bay Defeats Saanich United, 4-1, at Athletic Park

HOW THEY STAND

	W.	L.	D.	P.	A.P.
Navy	3	1	0	11	6
Garrison	2	1	1	10	5
Hudson's Bay	1	2	2	9	4
Saanich United	0	3	1	7	16

Navy's dash for the Hayward Cup came to a sudden halt yesterday at Work Point Barracks, when they were handed their first defeat of the season at the hands of the Garrison eleven by a 2-1 score in a Wednesday Football League fixture. While the sailors were going down for the initial time this year, Hudson's Bay, last year's champions, jumped back in the running for the trophy by defeating Saanich United at the Royal Athletic Park, 4-1.

Although the Navy fought throughout the battle with but ten men, they were beaten by a better aggregation on the day's play. The tars were without the services of Bruce Robinson, flashy centre forward, and Walker, who was injured in the last fixture. Robinson has left for the Old Country and will not be seen in action for some time.

The Cook's right hand

FOR COOKING

The value of Bovril in cooking is very great. A little added to soups and gravies puts real Beef strength into them; not merely coloring.

When cold meats have to be hashed or warmed up a little Bovril makes a truly wonderful difference and puts life into them.

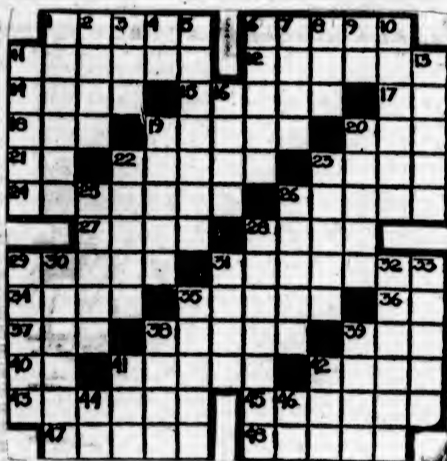

Just put a little Bovril into the next lot of soup you make, or pep up the next lot of gravy with Bovril and you will never again be without it.

BOVRIL

For BETTER Cooking

ANSWER TO YESTERDAY'S PUZZLE

WORK BEGUN ON OAK BAY ATHLETIC FIELD

The work of leveling, reseeded and draining the Oak Bay Athletic Ground has now been started. W. H. Mearns, chairman of the works committee of the Oak Bay Council, stated yesterday that the effect of the finished work will be to improve the ground out of all recognition. It had been originally intended to put the entire field under the plough at the present time. Owing to representations from the Oak Bay Athletic Association, however, it had been decided to deal first with the half of the ground farthest from the street car terminus. When this is ready for use by football and hockey teams, the other half will be improved.

Men Given Employment Clearing City Beaches

VANCOUVER, Nov. 19. — Forty single men were put to work today by the city relief department, clearing wood from sections of city beaches. There are two gangs and each man will work one day a week, in exchange for which he will receive meal and bed tickets for a week. In this way it is expected that about six hundred men can be given work, according to the relief department.

MAY CONFER ON NEW PARK PLAN

Question of Sea-Level National Playgrounds May Be Taken Up

HON. MR. MURPHY COMING

Creation of sea-level parks in British Columbia under national control will, it is expected, be taken up by the Provincial Government with Hon. T. G. Murphy, Minister of the Interior, who is now on his way to the Coast. The Federal minister will arrive in Vancouver on Friday, and will later come to this city to confer with Premier Tolmie, it is anticipated.

It was at Dr. Tolmie's suggestion recently that the Dominion Parks Branch sent J. M. Wardle, parks engineer, to the province to make a study of suitable areas for the establishment of national parks at sea level, when required. At present the Dominion maintains a chain of parks across Canada, but these are mostly at high altitudes. Mr. Wardle has now made his report to Ottawa, and it is anticipated the subject will be renewed with Hon. T. G. Murphy on his present visit.

While no specific sites were suggested in the provincial representations, Mr. Wardle was shown over two areas on the West Coast of Vancouver Island, and also territory near New Westminster.

The addition of sea-level playgrounds to the national chain would provide facilities for recreation for those living in the interior and at higher altitudes. It was pointed out, British Columbia has many suitable areas, some of which would lend themselves to adaptation to these purposes.

ONLY TWO BY-LAWS TO GO BEFORE ELECTORS

One to Provide New Fire Apparatus and One for New Fair Buildings

November 28 is the last date for consideration by the City Council of money by-laws to be submitted to the ratepayers at the December elections. It was stated yesterday by City Clerk M. F. Hunter. Only two by-laws, so far, will be submitted to the electorate. They are the Fire Equipment Loan By-Law to authorize the corporation to borrow \$40,000 for new fire apparatus, and the Exhibition Buildings Loan By-Law for \$70,000 to construct a manufacturing building and horse show and livestock building at the Willows Fair Grounds.

The exhibition by-law, if carried, will call for an expenditure of \$70,000, but only half of that amount will be payable out of the city treasury, the other \$35,000 to be provided by Provincial Government funds. The Provincial Government has agreed to pay the interest and sinking fund on \$35,000 over a period of ten years. The actual proposed expenditure for 1931 under debentures issued is therefore only \$75,000.

The Dardanelles widening by-law is not likely to be submitted at this election, aldermen say. The by-law proposed to acquire certain properties on the street lines to permit the widening scheme. It was not intended to include the by-law to

A New Vogue in Winter Footwear...

Fashion Decrees

these smart new Motor Boots

by GOODRICH

The New Goodrich Motor Boots are smartly tailored of imported long-wearing black or rich dark brown velvet—the season's most fashionable colors! And in black jersey too, if you prefer—at your nearest Goodrich dealer!

At your favorite shoe shop you'll see something new in outer footwear... the new Goodrich Motor Boot... the latest vogue in stormy day protection from snowy, slushy weather.

There is no need now to sacrifice smartness on wintry days. These fashionable boots are so smartly styled and trimly tailored... cozy warm yet compact and neat and not too heavy... just what you need for cold weather wear.

See them before the next snow-storm ruins your expensive shoes. Simply ask your nearest Goodrich Dealer for Goodrich Motor Boots—and your winter weather footwear problem is solved!

IN STEP WITH FASHION... the new Goodrich Zippers and Motor Boots are as neat and smart as the dainty modern shoes they protect.

What a Lovely Skin!

She Protects It by Yeast Method

No Trouble Here

THE REAL BEGINNING of a beautiful complexion is perfect health. Without that, color soon fades.

FRESH YEAST, added to your diet (3 cakes daily, before or between meals) helps lay the foundation for real health, renewed appetite, restored energy, greater reserve... and the result is better skin.

ALL BECAUSE yeast cleans and tones up the intestinal tract, where poison-forming wastes collect.

Complexion Color that Doesn't Come in JARS!

PUT away that lipstick! Go easy on the powder and rouge! Here's the way to lay the foundation for healthy color that no amount of cosmetics can match!

A good skin begins with a healthy body. Unfortunately, our bodies were not built for our present-day modes of living. And most of us, as a result, suffer from an age-old ailment... Intestinal Fatigue... that shows its marks first of all in bad skin.

Not only that, we lack vitality. Energy is quickly spent. We are susceptible to colds, to headaches. 90% of our common ailments come from one condition... Intestinal Fatigue.

Here's the way to radiant health that puts the rouge-pot to shame for color! Just a corrective treatment for that age-old evil... Intestinal Fatigue!

Now most of us are too impatient really to correct this trouble. We turn to cathartics, to laxatives, to measures that are often violent and always only temporary.

Doctors, including European specialists, are emphatic in warning against this method. They recommend, instead, a simple food routine that acts naturally and easily, restoring bodily function to normal once again.

This food is fresh yeast... ordinary Fleischmann's Yeast. Eaten regularly, it serves the highly useful purpose of regulating the intestines, of cleaning and toning up the very region where intestinal fatigue gets in its bad work.

And once yeast has been given a chance to clear away poison-breeding accumulations, color returns, the skin clears, pimples

and boils disappear. We feel better in many ways... because we again enjoy the true health without which a good natural complexion color is impossible.

If you really want a good complexion, make the right sort of beginning with Fleischmann's Yeast. Eat it regularly... three cakes a day, in water, milk, fruit juices, milk drinks or plain.

Remember, you can buy Fleischmann's Yeast anywhere... at grocers', restaurants, soda fountains, drug stores. Buy a supply today... and eat it regularly. Each cake is rich in three vitamins indispensable to health—vitamins B and G and the "sunshine" vitamin D.

Not a "Cure-all"... Fleischmann's Yeast is a health food thousands eat

three times a day

A Thrilling Romance of the British Secret Service

COMING **Amos 'n' Andy** In "CHECK AND DOUBLE CHECK"

At The Playhouses

WAR CANOES FEATURED IN CAPITOL PICTURE

"The Sea God" Shows Thrilling Attack by Native Craft on Sailing Schooner

Battle canoes which a few years ago swarmed out of remote bays in the South Sea Islands, filled with warriors seeking heads and the bodies of enemies to eat, are again making martial voyages.

Manned by native crews in full regalia, eleven of these fantastic, shell-decorated craft took part in the filming of Paramount's new talking picture, "The Sea God." This production, featuring Richard Arlen, Fay Wray and Eugene Pallette, and filmed partly on an island in the Pacific, opens a three-day engagement today at the Capitol Theatre. The war canoes are from thirty to fifty feet long and have a capacity of twenty to seventy-five warriors.

CRYSTAL GARDEN
The English Players Theatre
The comedy-drama with which they opened yesterday afternoon at the theatre, after the two days' visit of the Dumbells. A delightful play, charmingly acted, it is sure to draw good audiences for the rest of the week. Lillian Chagrine, Patrick Ludlow and Gordon McLeod in one of those character parts of which he is master, and Ely Malton, also in a character role, are sufficient to insure the popularity of this offering. On Monday next the "Players" will present a play that will probably prove the most popular in their repertoire, "Tons of Money." The title alone is cheerful, and the play is gay, laughable and altogether excellent entertainment.

CRYSTAL GARDEN
The English Players Theatre
The comedy-drama with which they opened yesterday afternoon at the theatre, after the two days' visit of the Dumbells. A delightful play, charmingly acted, it is sure to draw good audiences for the rest of the week. Lillian Chagrine, Patrick Ludlow and Gordon McLeod in one of those character parts of which he is master, and Ely Malton, also in a character role, are sufficient to insure the popularity of this offering. On Monday next the "Players" will present a play that will probably prove the most popular in their repertoire, "Tons of Money." The title alone is cheerful, and the play is gay, laughable and altogether excellent entertainment.

AMUSEMENTS

On the Stage
Royal—The Gordon McLeod Players offer "The Bride."

On the Screen
Capitol—"The Sea God," starring Richard Arlen.

Coliseum—Ronald Colman in "Bulldog Drummond."

Columbia—"Trailing Trouble," featuring Hoot Gibson.

Dominion—Bessie Love in "Good News."

Playhouse—"Around the Corner," featuring George Sidney and Charles Murray.

Crystal Garden—Swimming dancing and miniature golf.

They are made with three planks on each side and two narrow boards forming a flat bottom. All the boards have beveled edges and are sewn together by cords made from the stems of vines. The seams are caulked with a material something like resin, obtained from a jungle tree.

In the scenes depicting an attack upon a sailing schooner for which they man their war canoes, the natives carry carved spears eight feet long. These are made of palm wood and decorated with bands of colored hemp. Many of them also carry stone war clubs.

ROYAL The English Players Theatre
The comedy-drama with which they opened yesterday afternoon at the theatre, after the two days' visit of the Dumbells. A delightful play, charmingly acted, it is sure to draw good audiences for the rest of the week. Lillian Chagrine, Patrick Ludlow and Gordon McLeod in one of those character parts of which he is master, and Ely Malton, also in a character role, are sufficient to insure the popularity of this offering. On Monday next the "Players" will present a play that will probably prove the most popular in their repertoire, "Tons of Money." The title alone is cheerful, and the play is gay, laughable and altogether excellent entertainment.

COLISEUM A gypsy prince, a soldier of the Foreign Legion, a Flemish nobleman, a freebooting trader in the South Seas and now at last an Englishman in England—those are the high spots of Ronald Colman's career in pictures which culminate in "Bulldog Drummond," the comedy melodrama now showing at the Coliseum Theatre.

PLAYHOUSE Bert Glenon, one of Hollywood's directors, handled the megaphone on "Around the Corner," now showing at the Playhouse Theatre, starring George Sidney and Charles Murray in the leading roles. Glenon is considered one of the outstanding sound experts and has the faculty of introducing novel sound effects and perfect dialogue recording into his production.

HOOT GIBSON STAR OF "TRAILING TROUBLE"

With lightning dexterity, Hoot Gibson juggles thrills, romance and humor in his latest universal dialogue picture, "Trailing Trouble," which opens today at the Columbia Theatre.

Hoot is at his amazing best in his production, which has the added advantage of an unusual plot. The famous Western star runs the gamut of action from horses to airplanes, climaxing with a hair-raising parachute jump. The picture is especially rich in Gibson's own inimitable brand of humor.

Arthur Rosson, who directed, is deserving of unstinted praise for his admirable handling of the film. The picture grips attention from the moment the first scene is flashed on the screen, and there is not the sign of a let-down thereafter.

MIRTHFUL PRODUCTION AT DOMINION THEATRE

Bessie Love Heads Cast in Splendid Adaptation of Musical Comedy Success

If you saw the musical comedy hit on the stage you will need no introduction to the new Metro-Goldwyn-Mayer offering which opens today at the Dominion Theatre for a two-day showing.

Bessie Love heads the cast in this splendid production of the Broadway hit, "Good News," and scores comedy triumphs as Gus Shy, the original stage cast, teamed with her in a hilarious series of sequences.

The love theme is carried by Stanley Smith and Mary Lawlor, the charming ingenue of the stage production, and Lola Lane supplies motivation to the plot, which centres about a marriage that depends upon a football match.

Cliff (Duke Ike) Edwards is a comedy football trainer; Frank McGlynn, a dour professor; Tom Jackson, the coach, and Dorothy McNulty and Billy Tait pair off as Varsity Drag youngsters who make whoopee in a big way with capital dancing ensembles.

NARES WILL STAR AT COLISEUM SATURDAY

"Loose Ends," the great British production starring Owen Nares, is scheduled for the Coliseum Theatre on Saturday.

The role of Malcolm Forbes affords an excellent opportunity for a characterization of rare dramatic intensity, an opportunity of which Owen Nares avails himself to the utmost.

Edna Best, who is seen with Owen Nares in "Loose Ends," first acted in the talkies with the incomparable actor, Seymour Hicks. On the stage she had a tremendous success with her husband, Herbert Marshall, as "Michael and Mary."

HOPE TO SAVE LIVES OF CHILDREN GIVEN WRONG INOCULATION

MEDELLIN, Colombia, Nov. 19.—Medical authorities here with hopes today of saving the lives of thirty-four children, accidentally inoculated with diphtheria germs instead of antitoxin. Previous inoculation with antitoxin may have created sufficient immunity to prevent their deaths.

It was established today that fifteen children who received the improper inoculation were dead, instead of sixteen as was previously reported. Dr. Antonio Pena, of the National Laboratory of Hygiene, has come here from Bogota to direct efforts to repair the error.

Rev. G. T. Thompson, an octogenarian, who has been vicar of Heacham, England, for fifty-seven years, still carries on his work and recently won a bowls tournament after seven hours' play.

SOUND AUCTION and CONTRACT

North Pass Pass
East Pass Pass

Auction Bidding
1st Rd. 2nd Rd.
South Pass Pass
West 1 4 4
North Pass Pass
East Pass Pass

The above deal is illustrative of what may often be accomplished if one is not too timid to adhere to the conventional minimum opening bids even though it may be necessary to bid a four-card suit. Of course, it is not to be assumed that a game is always to be the result of such a bid, but even if it is not, a partial score is something to be very much desired, while at times such a bid will deter opponents from bidding for a game which they might have taken.

In the above deal, had West passed, instead of bidding one heart, the deal would have been passed out, for East has nothing resembling a Fourth Hand opening bid even though he has a two suiter. While East could bid Spades as First or Second Hand, he has not even the 2-4 quick tricks required for a Third Hand bid, much less the 3 to 3½ required for an opening Fourth Hand bid.

Of course, he is fortunate in getting the combined hands suitable for a cross ruff, but to balance this he finds one sure trump trick against him in spite of the fact that he and Dummy together hold nine Spades headed by the Ace-King.

DETECTIVE PLAY HAS SUCCESSFUL OPENING

"The Bride," Gordon McLeod English Players' Offering at Royal, Has Thrilling Plot

Anyone who likes a breath-taking detective story with thrilling moments of mystery enacted on a darkened stage, and a plot which throws suspicion on one after another of the actors, will surely enjoy "The Bride," the comedy which the Gordon McLeod English Players are offering at the Royal Victoria Theatre for the remainder of the week.

This really fine little play had its premiere at the theatre yesterday afternoon, and two or three times, both then and in the evening, the audience emitted audible exclamations when the excitement grew too tense during the third act.

The plot revolves round one Marie Duquesne, who makes her entry to the Travers Brothers' elaborate household via the roof, attired in bridal dress, which becomes the clue as to what for many has been the mystery which is said thereafter. At various moments, subsequently, Marie, who is spiritedly and attractively interpreted by Miss Lillian Chagrine, is represented as a runaway bride, then as a thief, and almost finally as a mentally deranged woman escaped from an insane asylum.

The last act gives a satisfactory explanation to the Travers Brothers, both of whom have fallen in love with the strangely-admitted lady, and to their aunt, Miss Henriette Travers, who has been unusually assiduous in helping along any inclinations toward marriage shown by her bachelor nephews.

The casting of the parts is admirable, and the action moves, for the most part, as quickly as it should for this kind of play, where events happen quickly and revelations pile one upon another with amazing celerity, particularly in the last act.

Miss Christine is, as already noted, very attractive in the part of the much-admired and much-suspected Marie, and holds a very commanding place in the numerous comic situations which her presence in the household creates.

The Travers brothers are played by Gordon McLeod and Patrick Ludlow, respectively, the former giving the appropriate deliberation, irascibility and pliancy to a character who loses the lady by default. The latter wins Marie by a lucky throw, having played a consistently romantic hand throughout the game, even not excepting the brief moment when he also succumbs to the general atmosphere of suspicion.

A brief and brutally commanding appearance is made by Robert A'Dair in the role of Inspector Gillson. The part demands just the kind of performance that is given.

Ely Malton is a genuinely sincere match-making aunt, Miss Henriette Travers, and says her lines with emphasis and purpose. Rex Devlin is James, the butler, about whom too much must not be said if the play is to be properly enjoyed. His acting is a well-balanced and restrained performance. As an elderly gentleman who is not what he appears, Isaac Walton Felham is splendidly characterized by Wylie Watson.

TUXIS COUNCIL MEETS

The second regular meeting of the Tuxis Council was held at the Y.M.C.A. on Saturday last at 6:15. Mayor Gordon Fields took charge of the meeting. After the routine business was disposed of, the planning of the election for the Boys' Parliament was discussed at some length. It was decided that a convocation of all Tuxis and Trail Ranger members should be held at the Y.M.C.A. on Friday, November 22. Here the nominees for Parliament would give their campaign speeches. The election of members will be held Saturday, a week later.

Likewise, he finds himself unable to establish his long side suit since his partner has no high cards therein. It might seem, therefore, that a trump opening might save game but one lead of trumps would do no good, and for North to lead a second round would cause him to lose the trump trick of which he is assured.

SALIENT POINTS OF THE BIDDING
Contract: South passes and West opens the bidding with one heart. North passes and East bids one Spade. He cannot make the forcing bid two Spades for the reason that his second suit, Clubs, is very weak, while he has but two hearts in his hand and could not return to that suit should Spades not fit partner's hand.

South passes and West bids four Spades, for, although his opening bid was a minimum as far as high cards are concerned for a four-card suit, he has ample support for the particular bid of Spades. This concludes the bidding.

Auction: The bidding is the same except that there is no need for West to raise East's bid and the hand is played at one Spade.

THE PLAY
South opens his fourth best Club, the three—this suit being preferable to the heart which has been bid by West. North takes the trick with the King and since East must have the Queen of Clubs, he returns the Diamond for he does not dare give up his sure trick in trumps. South takes the trick with the Ace and returns the seven of Spades; West plays the two, North the nine and East takes the trick with the King.

A small Club is led and trumped in the Dummy. The King of Diamonds is led from Dummy and a Club discarded by East. The Ace and King of Hearts are then taken, when playing a cross ruff hand the high cards in the side suits should be taken as soon as possible.

The combined hands are then played as a straight cross ruff. North over-trumps West on the fourth round of Clubs, but this enables East to pick up North's remaining trump with the Ace of Spades.

That Body of Yours

By James W. Barton, M.D.

COLDS

The question is naturally asked why colds are more common during the cold weather if colds are not due to the coldness of the air.

As a matter of fact what are called "colds" may be due to a number of causes—over-eating, under-eating, exposure to dampness, exposure to cold, overwork, underwork, and other causes.

Your family doctor will tell you that he finds colds amongst children who are not getting enough to eat, and in other children where too much has been eaten. Factory physicians report the same condition in adults.

In the case of lack of food the blood is not rich enough to ward off the organisms that attack the mucous membrane of nose, throat, and lining of bronchial tubes.

Overwork likewise weakens the resistance of the blood.

Where there has been over-eating there is so much waste in the blood from the unnecessary food eaten that again the blood is not able to fight off the organisms, and so the cold starts.

Now although simple colds cause more loss of time from employment than any other ailment, the serious thing to be considered is what may develop or follow from a simple cold.

Influenza, broncho pneumonia, pneumonia itself, may all develop from a simple cold, and that is why a cold should not be treated lightly—should never be neglected.

And the way to get ahead of a cold, to beat pneumonia or other serious condition, is to build up the natural resistance of the body.

There are two things to do, and to do immediately. First get rid of the wastes, the poisons, in the blood by a good purgative medicine—calomel followed by Epsom salts, castor oil, and sometimes the use of enemas. Second, give the body, particularly the heart, as much rest as possible by getting right to bed.

As a matter of fact, it will be your heart that will fight off the ailment; it will be your heart that you must depend on to save your life if pneumonia sets in. And lying down cuts its work down tremendously.

What about food?
Strength must be maintained, and while the stomach and intestines must not be given much work for a couple of days, real good foods, concentrated foods—meat, juices, eggs, milk—should be given.

Don't neglect a cold. Get off your feet at once; get intestines cleared; eat lightly.

THAT'S LIFE

After a woman has spent the afternoon at a bridge party boasting that her husband is just simply the nicest thing in the world, she reaches home angry at him because he is just an average husband.

New York Stocks Complete Recovery From Recession; Activity Well Distributed

NEW YORK, Nov. 19.—Speculative sentiment took a cheerful turn again today and the stock market completed its recovery from Monday's reaction. The market's net gain of 1 to 4 points on a turnover of 2,418,410 shares indicated that the day to day traders foresaw profits on the long side. Motor, motor accessory, railroad and utility shares were favored, although the best display of strength came in the late hours. Prominent industrials like U.S. Steel, Bethlehem Steel, General Electric, DuPont, Westinghouse, American Can and Johns-Manville closed 1 to 2 higher, while in the rails there were net advances of 1 to nearly 4 in New York Central, Baltimore & Ohio, Pennsylvania, Southern Railway, Southern Pacific, Northern Pacific, New Haven and Atchafalaya. American Telephone, American Foreign Power, Consolidated Gas, North American, American Power & Light and other utilities rose 2 to 3. Ingersoll-Rand soared 10 points and Allied Chemical & R. H. Macy, whose directors declared the customary annual stock dividend in addition to the cash payment, was up 3-4.

Callable at a premium of 5% up to and including April 1st, 1940, the premium thereafter decreasing 1% each five-year period; in each case with accrued interest. Trustee: Montreal Trust Company.

CAPITALIZATION

(To be outstanding on completion of present financing)

First Mortgage Gold Bonds	\$10,000,000*
6% Cumulative Redeemable Preferred Shares	6,000,000
Common Shares	3,500,000

*The issue of additional bonds is limited by restrictive provisions of the Trust Deed.

Descriptive circular (copies of which will be supplied upon request) contains a letter from Mr. G. A. Gaherty, President of the Company, which has been summarized in part as follows:

THE COMPANY: Calgary Power Company, Limited, has since 1911 been engaged in the production and sale of electricity in the Province of Alberta. Its transmission lines in that province reach 148 communities with an aggregate population in excess of 260,000, including the cities of Calgary, Edmonton, Lethbridge, Red Deer and Wetaskiwin. The Company's three hydro-electric generating stations have a combined capacity of 70,000 h.p., of which more than half is in the recently completed Ghost plant; and steam plants, operated as standbys, have a combined capacity of 18,000 h.p. More than 90% of its 1,865 miles of transmission line have been built within the past four years. Substations and distribution systems likewise are largely of recent construction.

The Company has acquired and will own through a wholly owned operating company, a light and power system, of recent construction, serving 32 communities in the area surrounding Regina, Saskatchewan, and extending in a south-easterly direction towards the Manitoba and international boundaries.

EARNINGS: Earnings of the Company and its wholly owned subsidiary Calgary Water Power Company, Limited, for the periods shown, as certified by Messrs. Macintosh, Cole & Robertson, Chartered Accountants, have been as follows:

	Fiscal Years Ended December 31st	12 Months Ended September 30th
	1928*	1929
Gross Earnings from Operations	\$949,422	\$1,506,829
Net Earnings available for Interest, Depreciation, etc.	533,888	857,017
Interest requirements of all First Mortgage Bonds now to be outstanding		\$ 500,000

*Including earnings of subsidiaries for part of year only.

Gross earnings from operations for the first nine months of the current year were \$1,260,566, representing an increase of 30% over those for the corresponding period of 1929. It is estimated that net earnings as above available for interest, depreciation, etc., for the year ending December 31st, 1930, will exceed \$1,250,000.

GROWTH OF BUSINESS: The substantial growth of the Company's business in Alberta in recent years is shown by the progressive increase in amount of electricity generated, from 63,191,125 k.w.h. in 1925 to 123,319,000 k.w.h. in 1929. For the month of October, 1930 (with the Edmonton inter-connection completed as from September 8th), kilowatt hours generated were 15,607,640, an increase of 25% over the corresponding month of 1929.

Price: 97 and accrued interest, to yield 5.20%

BIG MISSOURI GAINS 4 CENTS

Eastrest and Mayland Drop Six Cents Each for no Apparent Reason

MOST STOCKS INACTIVE

VANCOUVER, Nov. 19.—Unaccountable drops of 6 cents each in Mayland Oil and Eastrest, and a four-cent advance in Big Missouri featured today's trading session of the Vancouver Stock Exchange. Mayland and Eastrest dropped to 86 and 86, respectively, while Big Missouri sold up to 51 on a fair increase in activity. Otherwise the market was dull, with prices generally moving in narrow range. Home Oil sold as high as 2.22 during the day, but the closing bid was at 2.16, or one cent higher than yesterday's final quotation.

SECURITIES OUTLOOK

(Christie, Hall & Co., Ltd.)

VALUES have temporarily lost their bearing upon security prices. Fluctuations have been dominated by pessimism of such an extreme nature that it has warped sound judgment in relation to the stock market. New low levels have been reached comparable to those prevailing in 1927. The inconsistency of such an appraisal of the intrinsic worth of the legitimate securities becomes apparent when consideration is given to the large increase in wealth that has since been accumulated. This incontrovertible fact is engulphed in the maladjustment of the present process of reasoning and so long as the mental state continues it is anyone's guess if the decline has culminated, or if the final bottom has been reached. There is no yardstick by which panics and gyrations can be measured. They must turn themselves out. This one will also. Neither can we expect to witness much recovery in commodity prices with continued weakness in the stock market, for the destruction in values in one source can hardly be made up in another, for both are motivated by confidence. It needs only the lifting of the depression from the security markets to infuse firmness in commodity prices, for these staples have evinced a disposition to advance. This is reflected by cotton, rubber, copper and sugar prices.

The passing of values into stronger hands is confirmed by the large increases in odd-lot buying reported by the specialists. These intelligent investors will reap a large reward when the tide of business again turns upward. With the element of time and the weight of values now working now on the constructive side of industry, it would be folly for investors to sacrifice their securities. They are much nearer than they have been since the first of the year to a definite turn toward permanent improvement.

Shareholders Ratify Deal With Atlantic

VANCOUVER, Nov. 19.—Shareholders of the Baldwin Oil Company, at the general meeting last night, ratified the deal with Atlantic Petroleum Limited, entered into recently by Baldwin directors. The approval given by the shareholders was unanimous. Under the terms of the deal, Baldwin shareholders receive a cash dividend of 20 per cent on the outstanding stock of the company, with a substantial stock dividend going into the Baldwin treasury, Baldwin continuing as an active oil company.

"PURE BUNK" OTTAWA, Nov. 19.—"Pure bunk," exclaimed A. J. Macphail, president of the Canadian Wheat Pool, here last night when informed of a report that the grain market collapse was due to concentration of holdings in the hands of Canadian banks. The report, emanating from Winnipeg, claimed that the pool did not own any wheat today and that prices were deflated by uncertainty on the part of buyers as to the future intentions of the banks.

LARGE EXPORTS OF WHEAT MADE FROM DOMINION

More Than 85,000,000 Bu. Shipped in Last Three-Month Period

HIGH QUALITY AIDS IN EFFECTING SALES

OTTAWA, Nov. 19.—The wheat markets of the world have continued to be depressed by large available supplies and heavy offerings, although the physical conditions show a notable improvement over last year, says the review issued today by the Dominion Bureau of Statistics covering October and the first two weeks of November. The average weekly world shipments for this year to date have been about 10 per cent higher than last year. "In the past week Broomfield (British marketing authority) reduced his estimate on the total world's exportable surplus for this season by 32,000,000 bushels, the total now being 1,144,000,000, as compared with 904,000,000 bushels last year. "Despite the pressure of Soviet sales and the promise of large Southern Hemisphere supplies in the near future, Canadian sellers have secured a high proportion of orders, especially where strong, clean wheats are required. For the three months' period, August 1 to October 31, over 85,000,000 bushels of wheat were exported from Canada, and approximately the same rate has been maintained in the first two weeks of November. About a month remains before Southern Hemisphere wheat will reach consuming centres in volume, and in this time further considerable reductions of the heavy Canadian supplies will occur."

Prairie Premiers To Return After Day in Montreal

MONTREAL, Nov. 19.—Continuing their visit to Eastern Canada for discussion of matters in connection with wheat, with banking and Government officials, the premiers of Alberta, Saskatchewan and Manitoba reached Montreal today. In a brief interview upon arrival the premiers had little to say, preferring to wait until they had something definite to announce. Their visit to Montreal would end tonight, when they would leave for the West, it was stated. Asked as to whether or not he expected the wheat pool to be broken by the present wheat crisis, Premier Brownlee gave an emphatic "No."

London Has Ample Investment Funds For Good Issues

LONDON, Nov. 19.—The readiness of the London money market to absorb new first-class issues of municipal stocks, either from home cities or the Dominions, was exemplified again today by the instant response to the offer of £750,000 in 5 per cent bonds at 101, redeemable in 1961, from the Corporation of Capetown, South Africa.

Montreal Stocks

MONTREAL, Nov. 19.—With the power issues generally higher and Montreal Power, in particular, leading the way, the Montreal Stock Exchange today advanced to a firm close. Montreal Power was 2 1/2-8 better at 58 when trading ended. Power Corporation had registered a net gain of 1 1/2-2 at 54, and Shawinigan and B.C. Power were each slightly higher.

Consolidated Simelters ran up 4 points to 150 in light trading. Dominion Bridge picked up a full point at 56 and Nickel, Canada Power & Paper, Canadian Pacific and a few others were fractionally higher.

MEXICO BUYS WHEAT

CHICAGO, Nov. 19.—Reports received at the Chicago Board of Trade today from Mexico City said that the Mexican government had arranged for purchase of 200,000 bushels of Canadian wheat from the Canadian pool.

NEW YORK SUGAR

NEW YORK, Nov. 19.—Raw sugar was unsettled early today, owing to the setback in futures, which allowed operators to speculate on a rise in the market. Buyers, however, showed no very keen interest and the only sale reported was of 7,000 bags of Cuban from store worked yesterday at 3 1/2 duty paid, while offerings today were at 3 3/8. Refined was unchanged at 4 7/8 for fine granulated, with some second hands available at 4 6/8. The withdrawal demand was again of liberal proportions, but there was no new business reported.

MONEY MARKET

LONDON, Nov. 19.—Money, 17-8 per cent. Discount rates: Short bills, 2 1/4 to 2 5/8 per cent; three months, 2 1/4 per cent.

AT NEW YORK

NEW YORK, Nov. 19.—Call money steady, 2 per cent all day. Time loans, easy: 60 days, 2 to 2 1/4 per cent; 3-4 months, 2 1/2 to 2 3/4 per cent; 5-6 months, 2 3/4 to 3 per cent. Prime commercial paper, 2 3/4 to 3 per cent. Bankers' acceptances, unchanged.

Easy jobs never last long—the competition is too keen.

Russian Wheat Exports Dwindle; Argentine Comes

LIVERPOOL, Nov. 19.—Broomfield's Market Comment says: New Argentine wheat is quoted c.i.f. Europe, equivalent to 70 cents a bushel, No. 2 Manitoba about 76, and Australian about 82 cents. Offerings from Australia are scarce, which explains the great premium being paid for this wheat now. The color is excellent and the berry is moderately strong, which is particularly useful for mixing with Russian varieties. Supplies of Russian wheat have diminished sharply this month so that offerings for future shipment are much smaller. This is confirmed by the decreased chartering fleet in the Black Sea and at the Baltic ports. Arrivals of foreign wheat in the nine principal Continental ports last week totaled 6,544,000 compared with 8,168,000 the previous week. Seeding of winter wheat in Europe is now practically completed, but some of the United States has been very backward in this work.

TWO MEN ARRESTED ON MANSLAUGHTER COUNT

Herbert Warren and Earl Andrews Given Freedom on Bail of \$10,000 Each

WINNIPEG, Nov. 19.—Charges of manslaughter have been laid against two young Winnipeg men, Herbert Warren and Earl Andrews, as the result of an automobile crash in which Robert Simpson, aged twenty-two, lost his life. Andrews was the driver of a car which crashed into an auto driven by Warren on November 12.

Following an inquest into Simpson's death last night, the manslaughter charges were placed against the two men, who were given their freedom on bail of \$10,000 each. The coroner's jury finding stated that there was "a suggestion of liquor being partaken of by both parties, and we are of the opinion that both drivers are culpable, but we are inclined to believe that of the two Herbert Warren was the more negligent." Simpson died in hospital shortly after the accident from a fractured skull and other injuries received when he was thrown onto the pavement from Warren's car as the two autos crashed.

Hull, England, with a population of 300,000, is just substituting electricity for gas for street lighting.

SOVIET TRADE SHOWS FAVORABLE BALANCE

Reports Say Bread Lines Formed While Wheat Is Dumped in Britain

TORONTO, Nov. 19.—A special dispatch from London to The Toronto Globe today says: "Development of trade between the United Kingdom and Russia is attracting more public attention as evidence of the policy of dumping becomes clearer. The Soviet Union year book for 1929 shows that Soviet purchases in Great Britain during the period 1920-29 have amounted to £113,017,000, and Soviet sales during the same period to £18,688,000, the trade balance in favor of the Soviet Union being thus £94,329,000. This balance has been growing steadily in the past four years, as Russia has been able to extend her commerce. Statistics compiled by the Economic League from Soviet sources show that although the United States has increased its trade tremendously with Russia, it has been largely one way, while Britain, France, Italy, Holland and Persia contributed to Soviet wealth by purchasing much more than sold."

INCREASED EFFICIENCY

"The sales, however, have been chiefly in machinery and implements, which have added to Russian efficiency, and have enabled the Soviet Government to produce in volume and under less effort those countries which provided the means. This is what is going on now, bringing economic depression to the world."

"Not long ago The Daily Herald's Moscow correspondent wrote that bread queues had appeared in Russian cities after two years of absence. 'This,' said the correspondent, 'is particularly aggravating to the population, because everybody knows that the harvest is good, and that the Soviet is exporting considerable quantities of grain.' About the same time this was printed 7,000 quarters of wheat arrived at Lethbridge."

Kreuger Match Trust Receives Concession For Loan to Poland

By A. R. DECKER (Copyright, 1930, by The Chicago Daily News Service.)

PARIS, Nov. 19.—The Kreuger match trust of Sweden has signed an agreement with the Polish Government prolonging its match monopoly in Poland to 1965 in exchange for a loan of \$2,400,000 at 8, with interest at 8 1/2 per cent. It is rumored that Ivar Kreuger, director of the Swedish match trust, is also negotiating with the Poles for utility concessions.

B.C. GRAIN EXPORTS

VANCOUVER, Nov. 19.—Grain exports through the port of Vancouver at 8 a.m., Wednesday, had reached 22,223,167 bushels, compared with 9,462,401 bushels on the same date last year.

Ships are in port to load 1,142,990 bushels, and bookings for the balance of the month were 3,006,837 bushels. The stocks in elevators, in terminals and in cars total 12,801,676 bushels.

This year's exports have been shipped as follows: To the United Kingdom and Europe, 17,024,702 bushels; to the Orient, 4,260,371 bushels; to Central and South America, 716,813 bushels; to other countries, 261,276 bushels.

LOAN COMPANIES MERGE

LONDON, Ont., Nov. 19.—It is officially announced that negotiations leading up to the absorption of the Peoples Loan and Savings Corporation of London by the Huron and Erie Mortgage Corporation, were definitely concluded today by the boards of directors of the institutions. The agreement for the purchase is to be submitted to the shareholders at a later date.

Ottawa Minister Advises Lessened Wheat Production

TORONTO, Nov. 19.—Smaller production of wheat in the Western provinces as a means of solving the grain problem was advocated by Hon. Robert Weir, Minister of Agriculture for the Dominion, in an address before 500 farm boys of Ontario here tonight. "The young agriculturists are here as guests of the Ontario Government for the duration of the Royal Winter Fair. The solution I see is to decrease our growing of wheat so that it will not be too far above our actual requirements," declared Major Weir. "After all the only market we really control is the home market. We have no control over the markets of the world."

"We are at a psychological time in agriculture today," the Federal minister continued. "It is recognized that there must be a readjustment, and I believe the mind of Canada is such that the people will support anything that will further the interests of agriculture. The danger lies in following a wrong policy, and it behooves us to do all in our power to see that we take the right path. I have no fear for the future of agriculture in Canada, because we have all the requisites a country needs to prosper."

Switzerland Raises Duties on Aluminum; Following Germany

By A. R. DECKER (Copyright, 1930, by The Chicago Daily News Service.)

PARIS, Nov. 18.—The Swiss Federal Council today decided to add 60 francs per quintal (equivalent to \$12 per 220 pounds) to the duty on aluminum imports in the categories 862 to 865 inclusive, and 50 francs (\$10), to category 866.

In this action, the Swiss are following the German example, and announce that the duties are increased to prevent dumping.

Burgess Bedtime Stories

The Battle That Didn't End

By THORNTON W. BURGESS

In strength doth youth take boastful pride, And scorn to run away or hide.

—Old Mother Nature.

Never had there been such a battle in the Green Forest as the battle between Lightfoot the Deer and the strange Deer who had suddenly appeared. For a time they would separate every once in a while for a moment, then they would come together again, rising on their hind feet to strike with their forefeet; and then, head to head, pushing with all their might. The ground all about was trampled up. Now and then one would have a small advantage, but never for long. In strength they seemed to be about equal. Lightfoot was the older, but the experience, but the stranger had the advantage of youth. So, after all, they were quite equally matched.

All the little people of the Green Forest who could get their heads present looking on. Somehow, the news had spread. As you know, all the Squirrel cousins were present. They were all very interested in the fight. The Striped Chipmunk and Impy the black Chipmunk, Sammy Jay and Blacky the Crow were present almost from the start. Other feathered folk came, too. One Billy Possum, Bobby Coon, Billy Mink from the Laughing Brook, which was not far away; Reddy Fox, Mrs. Reddy, Old Man Coyote, Buster Bear, even the Kowler the Bobcat, all were looking on. No one made a sound. The only sounds were the snorts of the two fighters and the clash of their antlers and the stamping of their feet.

It was shortly after Jolly, round, red Mr. Sun began his daily climb up into the blue sky that the battle began. When he was right overhead, looking down, they were still there, head to head, pushing and shoving. Never had a battle been known to last so long. It was Reddy Fox who first noticed something odd on the part of the two fighters.

"Do you notice that they don't back off any more?" said to Mrs. Reddy. "When they stop to rest they keep head to head. I wonder if each is afraid that the other may run away. See, they've stopped to rest now."

Bure enough, the two fighters were standing still head to head and nose to nose. They were panting for breath. It was plain to see that both were tired. Neither one seemed to be hurt much. There were a few marks of sharp horns, but neither was hurt badly. For a little while they stood there, head down, forehead to forehead. Then Lightfoot once more began to push. The stranger backed a little way. Then he set his legs and straddled and pushed, and Lightfoot was back a little way. Both slipped down to their knees and continued to push.

It was after noon. One by one the onlookers slipped away to get something to eat. One by one they returned to find the two fighters still at it. It was growing late. Jolly, round, red Mr. Sun was close to the Purple Hills, behind which he would go to bed. The Black Shadows crept out across the Green Meadows and into the Green For-

"Do You Notice That They Don't Back Off Any More?" Said He to Mrs. Reddy

est. They found the two fighters still standing head to head now and then pushing a little, but for the most part standing there, tired out, yet neither seeming willing to quit. Pretty Mrs. Lightfoot was still looking on, but there was a queer expression on her face. It was as if there were something she did not understand.

The little people of the day departed for their homes. The little people of the night took their places. A great wonder took possession of all Handsome Lightfoot and the equally handsome strange Deer had fought all day and it looked as if they intended to fight all night.

The next story: "Sammy Jay Discovers the Truth."

How to Assist the Digestion

THE most dietatorial digestion is open to argument if you only select the right argument. Thus, many a man has found a virtue in "White Horse" taken just before or just after lunch or dinner. And, of course, you know that "White Horse" Whisky is non-gouty.

"White Horse" is so richly matured, so safe and so sound and so certain in the good it does.

KRAZY KAT

THE DOT CARTOONIST, BY GEORGE BELL

Three ladies in a New York railroad station were just agreeing that it takes all kinds of people to make this old world go, when in walked the stranger with a dirty face and a mysterious bundle under his coat. They couldn't figure out his occupation, but one suggested the bundle contained ----- (Kindly draw straight lines between the numbers.)

THE RIGHT MAN IN THE RIGHT PLACE

Efficiency engineers, factory superintendents, politicians, business men and others are fond of this line—"the right man in the right place." And rightly so, for it would be hard to find another expression which would adequately convey, as this one does, the idea of a person exactly suited to his employment.

While the phrase has all the earmarks of being one hundred per cent American, the fact is that its original authorship is attributed to the French statesman Talleyrand. Its popularity, however, is said to be due to its use by Sir Austen Henry Layard, in 1865, in the House of Commons.

Patsy: "Hello, Mike! They tell me that yer sister that was after marryin' Donovan last year is a happy mother this mornin'?"
Mike: "That's so."
Patsy: "Is it a boy or a girl that it is?"
Mike: "Ah, sure, I don't know. Isn't it meself that's just goin' up to the house to see whether it's an uncle or aunt."
